26. AT&T MEGACOM WATS SERVICE

Usage Schedule

Usage Charges

When an AT&T MEGACOM WATS Service charge is expressed in mills, or fraction or a mill, the charge will be rounded down to the next whole cent when the fractional charge is less than 5 mills and will be rounded up to the next whole cent when the fractional charge is 5 mills or greater (e.g., \$4.254 would be round down to \$4.25, and \$4.255 would be rounded up to \$.4.26).

Directory Assistance Charge

The Directory Assistance Charge as specified in Section 1, Paragraph 1.6.6 of this tariff applies for AT&T MEGACOM WATS Service.

AT&T MEGACOM WATS Service Rates

The following rates are applicable for AT&T MEGACOM WATS Service calls.

|               | Rates                                     |  |

TARIFF INFORMATION

General

This tariff contains the regulations and rates applicable to intrastate CUSTOM NETWORK SERVICES.

Tariff Structure

This tariff is subdivided into major sections that describe the terms, conditions, and rates under which CUSTOM NETWORK SERVICES are offered. These sections are as listed on the Master Table of Contents.

Location of Material

To locate material in this tariff, refer to the Master Table of Contents for the page number of the Section desired. For a more precise listing, refer to the detailed Table of Contents.

Abbreviations and Definitions

For a list of the abbreviations used in this tariff see Explanations of Abbreviations following. In addition, the General Regulations section contains a "Definitions" subsection that defines certain technical terms and terms that have specific meaning within the context of this tariff (see Definitions).

P.U.C. NO. 1

TARIFF INFORMATION

ORIGINAL PAGE 2

TARIFF INFORMATION

Tariff Format

1. Page Numbering

Page numbers appear in the upper right-hand corner of the page. Pages are numbered sequentially. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 21 and 22 would be 21.1.

2. Page Revision Numbers

Revision numbers also appear in the upper right-hand corner of the page. These numbers are used to determine the most current page version on file. For example, the 4th revised page 21 cancels the 3rd revised page 21. A revision may be suspended by the New Hampshire Public Utilities Commission for further review and consideration. Consult supplements for the page currently in effect.

3. Numbering Sequence

There are nine levels of alphanumeric coding. Each level is subservient to its next higher level. The following is an example of the numbering sequence used in this tariff.

2  
2.1.  
2.1.1.  
2.1.1.A.  
2.1.1.A.1.  
2.1.1.A.1.(a)  
2.1.1.A.1.(a)I.  
2.1.1.A.1.(a)I.(i)  
2.1.1.A.1.(a)I.(i)(1)

4. References To Other Rate Schedules

Whenever reference is made to other rate schedules, the reference is to the rate schedules in force as of the effective date of the reference, and to amendments thereto and successive issues thereof.

P.U.C. NO. 1

TARIFF INFORMATION

ORIGINAL PAGE 3

TARIFF INFORMATION

F. Supplements

If a tariff page is suspended, it cannot be revised until the suspension is ended. In the meantime, a new filing that would normally revise a suspended page can be made by issuing a supplement. The supplement amends the existing revision of the tariff page and does not affect the suspended page. A supplement may also be suspended because it is subject to the same review and acceptance by the New Hampshire Public Utilities Commission as any other filing.

G. Explanation of Symbols - Coding Of Tariff Revisions

Revisions to this tariff are coded through the use of symbols. These symbols appear in the right-hand margin of the page. The symbols and their meanings are:

- R - to signify reduction.
- I - to signify increase.
- C - to signify changed regulation.
- T - to signify a change in text but no change in rate or regulation.
- S - to signify reissued matter.
- M - to signify matter relocated without change.
- N - to signify new rate or regulation.
- D - to signify discontinued rate or regulation.
- Z - to signify a correction.

Other marginal codes are used to direct the tariff reader to a footnote for specific information. Codes used for this purpose are lowercase letters of the alphabet (e.g., x, y and z). These codes may appear beside the page revision number in the page header or in the right-hand margin opposite specific text.

A. Usage Schedules

Service Charges

Service Charges as specified in P.U.C. No. 4 will apply on Customer Dialed Calling Card Station and Operator Dialed Calling Card Station calls billed to Commercial Calling Cards in addition to the applicable usage rates specified in AT&T's Tariff P.U.C. No. 4.

B. Corporate Calling Card Global Enhancement

Corporate Calling Card Global Enhancements (CCCGE) is a Calling Card service offered to Customers that will use cross-reference billing to a commercial credit card. CCCGE calls may be established by dialing a designated access number from virtually any telephone in the state.

5. AT&T CUSTOMNET SERVICE

5.9. OPTION S

5.9.1. Usage Charges

Option S has separate rate schedules for Inward Calling, Outward Calling and the AT&T CIID/891 Card. The Option S Customer must subscribe to the interstate AT&T CustomNet Service-Options S as described in AT&T Business Services Guide. All terms and conditions, features, functions, discounts, installation and monthly charges except intrastate usage will apply as specified in AT&T Business Services Guide. Usage charges for Option S calls are charged at a 30 second minimum per call. Time over the initial 30 seconds will be charged in 6 second increments of fraction per call.

The Option S Customer must subscribe to a Net Monthly Minimum Revenue Commitment under Option I, Option II, Option III, Option IV, Option V or Option VI specified in AT&T Business Services Guide.

AT&T CustomNet Service Option S does not include the Combine Outward Calling and Inward Calling Discount Option or any volume discounts associated with AT&T CustomNet Service. In addition, Option S is not available to AT&T Customnet Service Type 2 locations.

A. Rate Schedules

The rates for Option S - Options I, II, III, IV, V and VI are as follows:

5. AT&T CUSTOMNET SERVICE

AT&T CustomNet Simply Better Flexible Pricing Plan

5.10.1. General

The AT&T CustomNet Simply Better Flexible Pricing Plan permits Customers to select the Inward, Outward and AT&T 891/CIID Calling Card usage rate schedules specified in Section 5.10.2. following, in lieu of the switched usage rate schedules specified in Sections 5.5.1.A, and 5.6.1.A & D preceding. The intrastate AT&T CustomNet Simply Better Flexible Pricing Plan is an add-on to the interstate AT&T CustomNet Simply Better Flexible Pricing Plan and all discounts, terms and conditions, features, functions and monthly charges may be found in AT&T Business Services Guide. The AT&T CustomNet Simply Better Flexible Pricing Plan intrastate usage rate schedules provide postalized usage rates for all times of day for all types of calling offered under the AT&T CustomNet Simply Better Flexible Pricing Plan.

The following services or call types may appear on the AT&T CustomNet Simply Better Flexible Pricing Plan bill, but will not receive AT&T CustomNet Simply Better Flexible Pricing Plan rates.

- AT&T Teleconference Service
- Directory Assistance/Toll-Free Directory Assistance
- 900 Multiquest
- Operator Assisted Calls

6. AT&T UNIPLAN SERVICE

Inward Calling Usage Rates

1. Inbound calling is provided via AT&T 800 READYLINE and AT&T MEGACOM 800 Service at the rates specified below. Regulations applicable to the 800 services are specified in this Company's Tariff Section 4 and 5 and appropriate Section of Tariff F.C.C. No. 2. All regulations except intrastate usage for UniPlan will apply as specified in AT&T Tariff F.C.C. No. 1.

2. Inward Calling

The usage rates for inward calling under this option are based on the type of access used, Switched and Special, and the time-of-day, Peak and Off-Peak, for each call terminated via the 800 services mentioned above. Calls received from 8:00 AM to, but not including 5:00 PM Monday through Friday are Peak hour calls. Calls received from 5:00 PM to, but not including 8:00 AM Monday through Friday, all day Saturday and Sunday (as specified for AT&T UniPlan) are Off-Peak calls.

The following rates are applicable to Switched Access and Special Access lines for inward calling calls.

|                   | Per Hour Rate |          |
|-------------------|---------------|----------|
|                   | Peak          | Off-Peak |
| - Switched Access | \$21.10       | \$16.88  |
| - Special Access  | \$10.45       | \$8.36   |

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE

Rate Schedules (Cont'd)

Schedule C0

AT&T Virtual Telecommunications Network Service Schedule C0  
includes rates for calls:

1. from a New Hampshire Customer-Specified Non-Port location to a location within the state of New Hampshire or,
2. from a New Hampshire location to a New Hampshire location with the use of Type II Authorization Code. Type II Authorization Code surcharges are found in each Customer Specific Option as defined in AT&T's F.C.C. Tariff No. 12 and
3. any other intrastate calls that would have been rated under Rate Schedule C in the Customer's VTNS Option in AT&T's Tariff F.C.C. No. 12, if such calls had been interstate calls.

| Rate<br>Period | Rates                             |  |
|----------------|-----------------------------------|--|
|                | Initial 18 Seconds<br>or Fraction | Each Additional 6 Seconds<br>or Fraction |
| 1              | \$.0804                           | \$.0268                                  |
| 2              | \$.0804                           | \$.0268                                  |
| 3              | \$.0804                           | \$.0268                                  |

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE

Rate Schedules

Schedule R0

Virtual Telecommunications Network Service (VTNS) Toll-Free Multimedia Service allows a VTNS Customer to add on a call-by-call basis, digital capabilities (at speeds of 56kbps or 64 KBPS where available) as well as voice, on one Port Access Telephone Number or Customer-specified Non-port Telephone Number. Intrastate VTNS Toll-Free Multimedia Service is an add-on to interstate VTNS Toll-Free Multimedia Service that is described in AT&T Business Services Guide. Installation, monthly charges, and features and functions may be found in AT&T Business Services Guide. For access to the digital portion of VTNS Toll-Free Multimedia Service, the call originator is responsible for obtaining digital access where available. Digital capabilities will generally be available where the LECs make access available. An AT&T ISDN PRI per AT&T Business Services Guide is required on the terminating end. The switched digital capability of VTNS Toll-Free Multimedia Service is described in AT&T Business Services Guide.

8. ACC BUSINESS SERVICE

Usage Schedules

ACC Business Service rates are usage-based and apply to an initial 30 seconds or fraction, and to each additional 6 seconds or fraction. ACC Business Service intrastate usage rate schedules provide postalized rates for Inbound Calling, Outbound Calling and Calling Card Calls. Usage charges are billed in arrears.

ACC Business Service dedicated service usage rates are billed in second initial and 6 second additional billing increments. All completed calls will be billed a minimum of the 6 second initial rate.

CUSTOM NETWORK SERVICES TARIFF

Issued: March 10, 2003

Effective: April 10, 2003

By: Leslie Buford-Tariff Administrator

227 W. Monroe St., Chicago, IL 60606

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 1

2. GENERAL REGULATIONS

2.1. APPLICATION

2.1.1. General

This tariff contains the regulations and rates applicable to CUSTOM NETWORK SERVICES between two stations in the State of New Hampshire.

2.1.2. Jurisdiction

Jurisdiction refers to the classification of a CUSTOM NETWORK SERVICES call as intrastate or interstate. Jurisdiction is a matter of law, not of Company discretion or policy, or Customer preference. The Law describing what constitutes interstate jurisdiction is the Communications Act of 1934, as amended. Some portions of this service are only subject to the jurisdiction of the Federal Communications Commission. This tariff covers the portion of Custom Network Service that is subject to the New Hampshire Public Utilities Commission's Jurisdiction.

2.2. UNDERTAKING OF THE COMPANY

2.2.1. General

CUSTOM NETWORK SERVICES are furnished for the transmission of voice communications but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the service. CUSTOM NETWORK SERVICES are offered to meet Customer needs for specialized telecommunications requirements between various geographic locations. CUSTOM NETWORK SERVICES are provided subject to the availability of installation personnel and equipment. Installations will usually be made during normal working hours.

CUSTOM NETWORK SERVICES are available twenty-four hours a day, seven days per week.

The Company does not transmit messages. However, CUSTOM NETWORK SERVICES may be used for that purpose.

\*\* Effective July 31, 2001 all references herein to AT&T FCC Tariffs, insofar as the service offering set forth in the AT&T FCC tariffs have been or become detariffed, shall be construed to be references to the AT&T Business Service Guides located at <http://www.att.com/serviceguide/business>. \*\*

CUSTOM NETWORK SERVICES TARIFF

Issued: March 10, 2003

Effective: April 10, 2003

By: Leslie Buford-Tariff Administrator

227 W. Monroe St., Chicago, IL 60606

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 2

2. GENERAL REGULATIONS

2.2. UNDERTAKING OF THE COMPANY (Cont'd)

2.2.2. Transmission Medium

The Company selects and/or arranges for the channels and/or service components used to provide CUSTOM NETWORK SERVICES. Any suitable technology or combination of technologies may be used. The Company may modify or change the channels and/or service components used to furnish CUSTOM NETWORK SERVICES at any time subject to the regulations in 1.8.3. of this tariff.

2.2.3. Provision of Customer Equipment

Customer equipment may be used with CUSTOM NETWORK SERVICES. The Company does not provide Customer equipment.

2.2.4. Through Transmission of Signals

The Company is responsible for the provision of CUSTOM NETWORK SERVICES from station to station. It is not responsible for the quality of transmission or signaling on the Customer's side of the interface at a Customer's premises. For AT&T MEGACOM WATS Service and AT&T MEGACOM 800 Service, the Company is responsible for the quality of transmission and/or signaling from the AT&T MEGACOM WATS Service and AT&T MEGACOM 800 Service central office to the called/calling station.

2.2.5. Availability of CUSTOM NETWORK SERVICES

A. Availability

1. Subject to compliance with B. following, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of two-point Long Distance Message Telecommunications Service shall take precedence over all other services provided by the Company.
2. Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.
3. Service will be provided where facilities and billing capability are available.

SECTION 2

ORIGINAL PAGE 3

2. GENERAL REGULATIONS

2.2. UNDERTAKING OF THE COMPANY (Cont'd)

2.2.5. Availability of CUSTOM NETWORK SERVICES (Cont'd)

B. Restoration of Service

The use and restoration of CUSTOM NETWORK SERVICES will be in accordance with Part 64, Subpart D, of the Federal Communications Commission's Rules and Regulations.

2.3 USE

2.3.1. General

CUSTOM NETWORK SERVICES may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. CUSTOM NETWORK SERVICES are furnished for use by the Customer but may be used by others when so authorized by the Customer.

2.3.2. Abuse

The abuse of CUSTOM NETWORK SERVICES is prohibited. The following activities constitute abuse:

- A. Using CUSTOM NETWORK SERVICES to make calls which might reasonably be expected to frighten, abuse, torment, or harass another, or
- B. Using CUSTOMER NETWORK SERVICES in such a way that it interferes unreasonably with the use of other Company services.

2. GENERAL REGULATIONS

2.3. USE (Cont'd)

2.3.3. Fraudulent Use

The fraudulent use of, or the intended or attempted fraudulent use of, CUSTOM NETWORK SERVICES is prohibited. The following activities constitute fraudulent use:

- A. Using CUSTOM NETWORK SERVICES to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service,
- B. Using or attempting to use CUSTOM NETWORK SERVICES with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by:
  - 1. Rearranging, tampering with, or making connections not authorized by this tariff to any service components used to furnish CUSTOM NETWORK SERVICES, or,
  - 2. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices, or electronic devices.

2.4. RESPONSIBILITIES OF THE COMPANY

2.4.1. Liability

- A. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of CUSTOM NETWORK SERVICES, and subject to the provisions of B. through G. following, the Company's liability, if any, shall not exceed an amount equal to the initial period charge provided for under this tariff for the CUSTOM NETWORK SERVICES call for the period during which the call was affected.
- B. The Company is not liable for damages associated with service, channels, or equipment which it does not furnish.
- C. The Company is not liable for damages to a premises resulting from the furnishing of CUSTOM NETWORK SERVICES, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Company's negligence.

2.4. RESPONSIBILITIES OF THE COMPANY (Cont'd)

2.4.1. Liability (Cont'd)

- D. The Company shall be indemnified, defended, and held harmless by the Customer and User against all claims, losses, or damages arising from the use of CUSTOM NETWORK SERVICES furnished pursuant to this tariff, involving:
  - 1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;
  - 2. Claims for patent infringement arising from combining or using CUSTOM NETWORK SERVICES furnished by the Company in connection with facilities or equipment furnished by others; or
  - 3. All other claims arising out of any act or omission of others relating to CUSTOM NETWORK SERVICES provided pursuant to this tariff.
- E. The Company does not guarantee or make any warranty with respect to CUSTOM NETWORK SERVICES when used in an explosive atmosphere. The Company shall be indemnified, defended, and held harmless by the Customer and User against all claims, losses or damages by any person relating to CUSTOM NETWORK SERVICES provided pursuant to this tariff when used in an explosive atmosphere.
- F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any service offered under this tariff. The Company will defend the Customer and User against claims of patent infringement arising solely from the use by the Customer or User of CUSTOM NETWORK SERVICES offered under this tariff and will indemnify such Customer or User for any damages awarded based solely on such claims.
- G. The Company's failure to provide or maintain service under this tariff shall be excused by Labor difficulties, governmental orders, civil commotions, natural catastrophe, and other circumstances beyond the Company's reasonable control.

227 W. Monroe St., Chicago, IL 60606

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 6

2. GENERAL REGULATIONS

2.5. RESPONSIBILITIES OF THE CUSTOMER

2.5.1. General

The Customer's general responsibilities are described in this section. When Customer equipment or a Customer-provided communications system is connected to CUSTOM NETWORK SERVICES, the Customer assumes additional responsibilities that are described in the Connections section of this tariff (see Section 1.8 of this tariff).

A. Payment of Bills and Compliance with Regulations

The Customer is responsible for placing any necessary orders and complying with tariff regulations for CUSTOM NETWORK SERVICES and for assuring that its Users comply with tariff regulations. The Customer is also responsible for the payment of bills for CUSTOM NETWORK SERVICES. This includes payment for CUSTOM NETWORK SERVICES calls or services originated or received at the Customer's number(s).

B. Establishing Identity

1. The calling party is responsible for establishing its identity as often as necessary during the course of a call.
2. The calling party assumes full responsibility for identifying the station, party, or person with whom connection is made at the called number or numbers.

2.6. PAYMENTS AND CHARGES

2.6.1. General

The applicable rates and charges are contained in the service sections of this tariff.

2.6.2. Application of Charges

The rates and charges that are in effect in this tariff when CUSTOM NETWORK SERVICES are furnished are the rates and charges used to determine the Customer's bill.

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 7

2. GENERAL REGULATIONS

2.6.1. PAYMENTS AND CHARGES (Cont'd)

2.6.3. Payment of Charges

Payment for CUSTOM NETWORK SERVICES is due upon presentation of the bill. CUSTOM NETWORK SERVICES may be denied for nonpayment of a bill (see Violation of Regulations, Section 1.10.).

2.6.4. Deposits

See AT&T Tariff F.C.C. No. 1 or 2.

2.6.5. Charges Not Applying

Restoral Charges and Check Return Charges are not applicable to CUSTOM NETWORK SERVICES.

2.6.6. Directory Assistance Charge

Intrastate Directory Assistance Service involves the supplying of assistance in determining or attempting to determine the telephone number of a party.

This Directory Assistance Charge applies to all calls made using CUSTOM NETWORK SERVICES that have access to a Directory Assistance bureau.

Assistance bureau furnishes the requested telephone number(s) (e.g., where the requested telephone number is unlisted, nonpublished or no record can be found). Directory Assistance personnel cannot complete a call to a requested telephone.

For Directory Assistance Charge see AT&T's tariff P.U.C. No. 4, Section 1, Paragraph 1.6.4.

2.6.7. Discount Plans

Discounts set forth in AT&T Intrastate tariff may apply to interstate and intrastate usage revenue for the CUSTOM NETWORK SERVICES listed below. These discounts are subject to the terms and conditions as outlined in the appropriate F.C.C. tariffs.

CUSTOM NETWORK SERVICES

AT&T Software Defined Network Service

AT&T MEGACOM WATS and AT&T MEGACOM Plus Service

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched

2. GENERAL REGULATIONS

2.6. PAYMENTS AND CHARGES (Cont'd)

2.6.8. Promotional Offerings

Periodically, AT&T may engage in promotional offerings or demonstrations of authorized Custom Network Services in order to retain existing Customers, to stimulate existing Customer usage, to attract new Customers, to winback former Customers, or, to increase awareness of AT&T services. Such offerings will be limited to certain dates, times and/or locations. AT&T, upon seven (7) days notice to the Public Utilities Commission, will specify the rates, terms, conditions and time intervals applicable to each promotional offering.

2.6.9. AT&T Public Payphone Use Charge

In addition to all other charges for Custom Network Services under this tariff, a non-discountable Payphone Use Charge shall apply to each coinless call which AT&T can identify as placed from a domestic payphone by or to the Customer or its permitted users. This charge does not apply to calls completed using AT&T 800 Plan P Service or calls that are subject to the payphone charge specified in this Company's New Hampshire Tariff P.U.C. No. 4. This charge is for the use of the payphone instrument to access AT&T services.

The rate for the Public Payphone Use Charge is:

|                          | <u>Rate</u> |
|--------------------------|-------------|
| Per Public Payphone call | \$0.26 (R)  |

2.7. USE OF ANOTHER MEANS OF COMMUNICATION

2.7.1. General

If the Customer elects to use another means of communication during a period of interruption, the Customer must pay the charges for the alternative service used.

2.8. CONNECTIONS

2.8.1. General

When Customer equipment is connected to CUSTOM NETWORK SERVICES it must comply with Part 68 of the FCC's Rules and Regulations, 47 C.F.R. Part 68 (commonly known as the FCC's Registration Program). When any equipment or system which is not subject to Part 68 of the FCC's Rules and Regulations is connected to CUSTOM NETWORK SERVICES, the Minimum Protection Criteria specified in this tariff must be met. CUSTOM NETWORK SERVICES may be connected to private networks or communications systems under the terms and conditions specified in that section.

The Company is responsible for the quality of transmission from station to station.

1.8.2. Responsibilities of the Customer

When Customer equipment or a Customer-provided communications system is connected to CUSTOM NETWORK SERVICES, the Customer assumes responsibility for the connection as follows:

A. Compatibility with CUSTOM NETWORK SERVICES

The Customer is responsible for the compatibility of its equipment or system with CUSTOM NETWORK SERVICES. This responsibility applies at the initial installation and on a continuing basis as long as the connection is made.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.2. Responsibilities of the Customer (Cont'd)

B. Interference and Hazard

The operating characteristics of the customer equipment or customer-provided communications system connected to CUSTOM NETWORK SERVICES must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of CUSTOM NETWORK SERVICES.

C. Changes to CUSTOM NETWORK SERVICES

The Company is not obligated to alter or modify CUSTOM NETWORK SERVICES because of additions or changes to Customer equipment or a Customer-provided communications system.

D. Testing and Maintenance

If a trouble condition occurs on an assembly, the Customer must determine whether the fault is in (1) the connected Customer equipment or Customer-provided communication system, or (2) CUSTOM NETWORK SERVICES. The Company will test and maintain only CUSTOM NETWORK SERVICES.

The testing of CUSTOM NETWORK SERVICES will usually be made from a central office. The Company will not dispatch a repair person to a Customer's or User's premises if a trouble condition (or suspected trouble condition) exists on the local exchange service. The Customer is responsible for requesting such dispatch from the provider of the local exchange service. The Customer is also responsible for the payment of such provider's charges, if any, for the dispatch.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.3. Responsibilities of the Company

A. General

The Company will furnish and maintain its service components in a manner suitable for CUSTOM NETWORK SERVICES. The Company will make available information as required by Part 68 of the FCC's Rules and Regulations (e.g., the number of ringers that may be connected to a particular line). In addition, the Company will be responsible for the compatibility of its equipment or services with CUSTOM NETWORK SERVICES when such equipment or services are connected to CUSTOM NETWORK SERVICES at a central office.

B. Changes in Components, Operations, or Procedures

The Company is not responsible to any party if a change in its CUSTOM NETWORK SERVICES components, operations, or procedures, which is consistent with the Registration Program: (1) affects any facilities, Customer equipment or Customer-provided communications systems provided by others in any way, or (2) requires the Customer-provided equipment to be modified in order to be used with CUSTOM NETWORK SERVICES. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of CUSTOM NETWORK SERVICES or render any Customer equipment or Customer-provided communications system incompatible with CUSTOM NETWORK SERVICES, the Company will provide adequate notice, in writing, to allow the Customer an opportunity to maintain uninterrupted service.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.4. Connection to a Customer-Provided Communications System or to Service(s) Provided by Others

Any system or service connected to CUSTOM NETWORK SERVICES offerings must be operated and maintained so it will work satisfactorily with CUSTOM NETWORK SERVICES. Connections to CUSTOM NETWORK SERVICES will be made in accordance with the following:

A. Answer Supervision

Answer supervision must be provided when a CUSTOM NETWORK SERVICES offering is connected to switching equipment or a Customer-provided communications system which is not subject to Part 68 of the FCC Rules and Regulations, 47 C.F.R. Part 68. In such cases, the equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the CUSTOM NETWORK SERVICES call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party.

B. Minimum Protection Criteria

The connection at the station used for CUSTOM NETWORK SERVICES must be made so that it continually complies with the specified Minimum Protection Criteria, Section 1.8.5. of this tariff.

C. Customer-Provided Communications System Failures

When a Customer-provided communications system fails and the connection to CUSTOM NETWORK SERVICES is not through switching equipment, the Customer-provided communications system must be arranged to promptly return the CUSTOM NETWORK SERVICES to an idle (on-hook) state. In addition, the Customer must notify the Company when the Customer-provided communications system fails.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.4. Connection to a Customer-Provided Communications System or to Service(s) Provided by Others (Cont'd)

D. Use of Satellite Facilities

If a Customer-provided communications system uses satellite facilities (directly or indirectly), and is connected to CUSTOM NETWORK SERVICES, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for any deterioration in transmission. It will continue to furnish CUSTOM NETWORK SERVICES using the service components that it considers to be appropriate.

2.8.5. Minimum Protection Criteria

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria apply to the direct electrical, acoustic, or inductive connections of Customer equipment, test equipment and Customer-provided communications systems to CUSTOM NETWORK SERVICES.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.5. Minimum Protection Criteria (Cont'd)

B. All Connections

Customer equipment, test equipment and Customer-provided communications systems connected to CUSTOM NETWORK SERVICES on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the station meets the following limits:

a. Metallic Voltage

1. 4 kHz to 270 kHz

| <u>Center Frequency (f)<br/>of 8 kHz Band</u> | <u>Maximum Voltage in<br/>All 8 kHz Bands</u> | <u>Terminating<br/>Impedance</u> |
|---|---|----------------------------------|
| 8 kHz to 12 kHz                               | - (6.4+12.6 log f) dBV*                       | 300 ohms                         |
| 12 kHz to 90 kHz                              | (23 - 40 log f) dBV                           | 135 ohms                         |
| 90 kHz to 266 kHz                             | - 55 dBV                                      | 135 ohms                         |

\* dBV = 20 log<sub>10</sub> voltage in volts

2. The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.5. Minimum Protection Criteria (Cont'd)

B. All Connections (Cont'd)

1. (Cont'd)

b. Longitudinal Voltage

1. 4 kHz to 270 kHz

| <u>Center Frequency (f)<br/>of 8 kHz Band</u> | <u>Maximum Voltage in<br/>All 8 kHz Bands</u> | <u>Terminating<br/>Impedance</u> |
|---|---|----------------------------------|
| 8 kHz to 12 kHz                               | - (18.4+20 log f) dBV*                        | 500 ohms                         |
| 12 kHz to 42 kHz                              | (3 - 40 log f) dBV                            | 90 ohms                          |
| 42 kHz to 266 kHz                             | - 62 dBV                                      | 90 ohms                          |

\* dBV = 20 log<sub>10</sub> voltage in volts

2. The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

2. To prevent the interruption or disconnection of CUSTOM NETWORK SERVICES calls, it is necessary that the signal power applied at the station be limited. Specifically, the signal at the station shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the station in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

SECTION 2

ORIGINAL PAGE 16

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.5. Minimum Protection Criteria (Cont'd)

C. Direct Electrical Connections

In addition to the regulations in B. preceding, Customer equipment, test equipment and Customer-provided communications systems which are connected to CUSTOM NETWORK SERVICES on a direct electrical basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the AT&T central office not exceed 12dB below one milliwatt when measured over any three second interval. To ensure that this limit is not exceeded, the power of the signal which may be applied by the Customer equipment, test equipment, or Customer-provided communications system to the station will be specified for each Customer location. In no case shall the power exceed one milliwatt.

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, Customer equipment and Customer-provided communications systems which are connected to CUSTOM NETWORK SERVICES on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the station located on the Customer's or User's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three-second interval. However, to permit each Customer, independent of distance from the serving office, to supply signal power at the serving office approximating 12dB below one milliwatt when averaged over any three-second interval, the Company, at the Customer's request, will specify, for each Customer location, the signal power at the station, which shall in no case exceed one milliwatt.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.6. Recording of Two-Way Telephone Conversations

CUSTOM NETWORK SERVICES are not represented as adaptable to the recording of two-way telephone conversations. However, voice recording equipment which is directly, acoustically or inductively connected with CUSTOM NETWORK SERVICES may be used for the recording of such conversations subject to the following regulations which have been adopted by the FCC:

A. Recording Requirements

The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the Customer. In addition, one of the following conditions must apply:

- All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at, the start of the recording, or
- All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party, or
- A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when the recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

A broadcast licensee shall be exempt from the above recording requirements provided at least one of the following requirements is met:

- The licensee informs each party to the call of its intent to broadcast the conversation; or
- Each party to the call is aware of the licensee's intent to broadcast the call; or
- Such awareness of the licensee's intent to broadcast the call may be reasonably imputed to the party.

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.6. Recording of Two-Way Telephone Conversations (Cont'd)

B. Exceptions

The FCC has established the following exceptions to the foregoing requirements:

1. Recordings made of incoming calls to telephone numbers publicized for emergencies involving health or safety of life and property (e.g., emergency situations involving fire, health care, police, public utilities and emergency road service) and outgoing calls made in immediate response to such calls. Included in this exception are:
  - a. Recordings made at the United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to CUSTOM NETWORK SERVICES.
  - b. Recordings made by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center.
2. Recordings of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests and obscene telephone calls. Outgoing calls made in immediate response to such calls are also excepted. Included in this exception are:
  - a. Recordings made by the United States Secret Service of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his or her immediate family, or the White House and its grounds.
3. Recordings of calls made by Federal, State or local law enforcement authorities, or federal intelligence authorities, acting under color of law.

227 W. Monroe St., Chicago, IL 60606

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 19

2. GENERAL REGULATIONS

2.8. CONNECTIONS (Cont'd)

2.8.7. Connections to Other Services Provided by the Company

A CUSTOM NETWORK SERVICES offering may be connected at a Customer's premises to other services provided by this Company, if they are electrically compatible. Connections at an AT&T central office may be made to Private Line Service furnished under the Company's Interstate Private Line Tariffs, as specified in the appropriate sections of those tariffs. All connections are subject to the regulations in this tariff and the regulations in the tariff under which the other service is furnished.

2.9. RATE DETERMINATION

The rate for a CUSTOM NETWORK SERVICES call is determined by factors such as:

- The distance between the rate centers of the originating (calling) station and the terminating (called) station; or the distance between the V&H coordinates of an AT&T central office and the rate center of a station or the V&H coordinates of an AT&T central office.
- The time of day and the day of week
- The duration of the call.

The specific factors which apply to a given CUSTOM NETWORK SERVICES call and their application are listed in the rate section applicable to that type of call. The regulations pertaining to those factors are as follows:

2.9.1. Time of Day and Day of Week

The rate charged for a CUSTOM NETWORK SERVICES call is determined in part by the day of the week and time of day at the originating (calling) station or at the AT&T central office associated with the originating (calling) station using special access. Different rates may be applicable to a call at different times of the day and on certain days of the week as specified in the appropriate rate section for that call.

P.U.C. NO. 1  
SECTION 2  
ORIGINAL PAGE 20

2. GENERAL REGULATIONS

2.9. RATE DETERMINATION (Cont'd)

2.9.2. Determining the Chargeable Time of a Call

The chargeable time for a CUSTOM NETWORK SERVICES call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

- A. On all calls, chargeable time begins when connection is established between the calling station and the called station.
- B. Chargeable time ends when the calling station hangs up. If the called station hangs up but the calling station does not, chargeable time ends when the connection is released by automatic timing equipment in the telecommunications network.
- C. When CUSTOM NETWORK SERVICES are directly connected to a Customer- provided communications system at a Customer's or User's premises, chargeable time begins when a CUSTOM NETWORK SERVICES call terminates in, or passes through, the first Customer equipment on that Customer-provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the CUSTOM NETWORK SERVICES so that chargeable time may begin.

2.9.3. Determining the Applicable Rate in Effect

- A. Except for CUSTOM NETWORK SERVICES calls that use a special access line, when the call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a calling station on CUSTOM NETWORK SERVICES uses a special access line the rate in effect at the AT&T central office for each rate period applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.
- B. Chargeable time for a rate period (e.g., 8 AM - 5 PM) begins with the first stated hour (e.g., 8 AM) and continues to, but does not include, the second stated hour (e.g., 5 PM).

2.9. RATE DETERMINATION (Cont'd)

2.9.4. Use of CUSTOM NETWORK SERVICES For Resale or Shared Use

When CUSTOM NETWORK SERVICES are resold or shared, the Customer may advise its User that a portion of the Customer's service is provided by this Company. However, the Customer shall not represent that this Company jointly participates in the provision of the Customer's services.

2.10. VIOLATION OF REGULATIONS

2.10.1. General

The Company may take immediate action to protect its services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action(s) which will be taken by this Company are as specified in 1.10.2. and 1.10.3. following.

P.U.C. NO. 1

SECTION 2

ORIGINAL PAGE 22

2. GENERAL REGULATIONS

2.10. VIOLATION OF REGULATIONS (Cont'd)

2.10.2. Interference, Impairment or Improper Use

The Company may temporarily restrict service immediately when the Customer:

- circumvents the Company's ability to charge for its services as specified in Section 1.3.3.B. (Fraudulent Use) preceding, or
- causes directly or indirectly an immediate harm to the CUSTOM NETWORK SERVICES network or other Company services as specified in Section 1.8.5. (Minimum Protection Criteria).

In such cases, the Company will make a reasonable effort to give the Customer prior notice before restricting service.

If a Customer fails to comply with Section 1.3. (Use), 1.8.4.A. (Answer Supervision), 1.8.4.C. (Customer-Provided Communications System Failures), and 1.8.5. (Minimum Protection Criteria) preceding, the Company may, on ten days written notice by certified U.S. Mail to the Customer, deny requests for additional service and/or restrict service to the noncomplying Customer. If the Company does not deny or restrict the service involved on the date of the ten days notice, and the Customer noncompliance continues, nothing contained herein shall preclude the Company's right to deny or restrict the service without further notice.

When a violation results in a denial for additional service and/or restriction of service, the denial and/or restriction will be removed when the Customer is in compliance with the regulation and so advises the Company.

2.10.3. Nonpayment of Charges

The Company may deny and/or restrict CUSTOM NETWORK SERVICES for nonpayment of charges due as specified in section 1.6.3. (Payment of Charges) preceding. A written notice will be sent to the Customer at least five days in advance of the restriction and/or denial of CUSTOM NETWORK SERVICES. Upon payment of charges the restriction and/or denial of CUSTOM NETWORK SERVICES will be removed.

2. GENERAL REGULATIONS

2.11. ACCESS LINES

2.11.1. General

CUSTOM NETWORK SERVICES access lines connect a Customer premises or a Customer's private network to a CUSTOM NETWORK SERVICES. There are two types of access lines: special access and local exchange service access. The access lines that are available for a specific service are specified in the section of this tariff which offers the service.

2.11.2. Special Access

The Customer's premises may be connected to an AT&T Central Office using special access and a central office connection. Special access may be obtained from AT&T or from others. The rates and regulations for special access obtained from AT&T are found in this Company's Tariff F.C.C. No. 9 and/or Tariff F.C.C. No. 11. The rates and regulations for the appropriate central office connection are found in this Company's Tariff F.C.C. No. 9.

2.11.3. Local Exchange Service Access

When local exchange service is required to access CUSTOM NETWORK SERVICES, the Customer is responsible for obtaining the local exchange service from the local exchange company.

2. GENERAL REGULATIONS

2.12. DEFINITIONS

Access Line

A transmission path that connects a Customer premises to an AT&T central office.

Access Line Grouping

An access line or group of access lines with the same assigned AT&T Software Defined Network identifying number. A group of access lines may be either standard or special access lines, but must be all of one type.

Action Point Number (APN)

An Action Point Number is a non-geographic number that routes to a specific trunk group.

Assembly

A configuration consisting of Customer equipment and/or a Customer-provided communications system or systems, which is connected to CUSTOM NETWORK SERVICES.

AT&T Card

A card authorized and issued by AT&T to which the charges for a Caller Paid AT&T EasyReach Service call may be billed (see also Calling Card).

AT&T Central Office

The physical point of access for a service to the AT&T interoffice network. Criteria for establishing AT&T central offices and a list of AT&T central offices with services provided are in this Company's Tariff FCC No. 10.

2. GENERAL REGULATIONS

2.12. DEFINITIONS

Authorization Code

Numeric Codes that will provide Customers with billing alternatives. Authorization Codes may be AT&T or Customer Administered as specified below. When AT&T assigns Authorization Codes they are AT&T administered. When the Customer assigns the Authorization Codes they are Customer administered. There are two types of Authorization Codes as specified below:

- Type I Authorization Code

A Type I Authorization Code allows calls placed from any location in the state of New Hampshire to be billed to that Authorization Code. A Type I Authorization Code can be Customer or AT&T administered. Customer administered Type I can be either standard or expanded.

- Type II Authorization Code

A Type II Authorization Code enables a Customer to place a call from any New Hampshire location, without the assistance of an operator, by dialing 0+ the called number. A Type II Authorization Code is AT&T administered.

Building

A structure consisting of an enclosed area surrounded by outside walls and under one continuous roof.

Call

A completed connection established between a calling station and one or more called stations.

2. GENERAL REGULATIONS

2.12. DEFINITIONS (Cont'd)

Calling Card

A card authorized by this Company to which the charges for a Caller Paid AT&T EasyReach Service call may be billed. A Calling Card may be a credit/charge card accepted by AT&T for the billing of Commercial Long Distance calls. Calling Cards may be either Commercial Calling Cards or Consumer Calling Cards.

Called Station

The station (e.g., telephone number) called, or the terminating point of a call.

Calling Station

The station from which a call is originated.

Commercial Calling Card

A Calling Card issued by AT&T or a Local Exchange Company that is billed to an account associated with a line for which the subscriber pays a rate that is described solely as Business or Commercial rate in the applicable Local Exchange Company tariff for switched services; or a Credit/Charge Card issued by a non-carrier to a Customer whom the issuer defines as a Commercial or Business account.

Commercial Credit Card

The term "Commercial Credit card" denotes a billing arrangement by which a Caller Paid AT&T EasyReach Service call may be charged to an authorized commercial credit card number.

Company

AT&T Communications of New Hampshire, Inc., and the American Telephone and Telegraph Company, Interstate Division (AT&T Communications).

Consumer Calling Card

Any Calling Card that is not a Commercial Calling Card.

Customer

The person or legal entity which orders service (either direct or through an agent).

SECTION 2

ORIGINAL PAGE 27

2. GENERAL REGULATIONS

2.12. DEFINITIONS (Cont'd)

Customer-Provided Communications System

Dedicated private line channels and equipment (e.g., microwave or cable system) furnished by the Customer for communications between premises.

Customer-Specified Non-Port Location

A location which is designated by the Customer to originate VTNS calls. To establish VTNS calling capability at the location, the Customer must obtain Local Exchange Service which the Customer pre-subscribes to AT&T. The Customer is responsible for paying the Local Exchange Company any charges associated with the Local Exchange Service.

Customer-Specified Non-Port Telephone Number

A designated telephone number associated with a Customer Specified Non-Port Location. This number can be dialed from locations as specified in each VTNS Option to connect a call to that Customer-Specified Non-Port Location. Charges for calls using this feature are billed to the called number.

Grandfathered Equipment

A term which describes Customer equipment that was directly connected under the circumstances specified below and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations:

- A. The terminal equipment was directly connected to the telecommunications network or local exchange service prior to July 1, 1979.
- B. The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.
- C. The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth in A. and B. preceding.

2. GENERAL REGULATIONS

2.12. DEFINITIONS (Cont'd)

Home NPA

As used in connection with AT&T MEGACOM 800 Service, the NPA of the AT&T MEGACOM 800 Service central office from which a Customer has obtained service. As used in connection with AT&T 800 READYLINE, the NPA from which a Customer obtains AT&T 800 READYLINE.

Hub

A traffic concentration point.

Interface

The electrical and physical means by which a connection is made at the station.

Local Exchange Service Access

A common line that connects a Customer premises to an AT&T switched service using local exchange company switched access.

Multiline Terminating System

Customer's or User's premises switching equipment and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, circuit or Customer-provided communications system.

Off-Network Call

A call between a station on a CUSTOM NETWORK SERVICES and a station which is not associated with CUSTOM NETWORK SERVICES or between two stations which use CUSTOM NETWORK SERVICES to complete a call.

On-Network Call

A call between stations on CUSTOM NETWORK SERVICES.

2. GENERAL REGULATIONS

2.12. DEFINITIONS (Cont'd)

Port

A Voice - Equivalent traffic origination or termination point for VTNS transmission, located at a Hub or Remote Location. A port is considered a station.

- Basic Port

A Port located at a Hub, capable of originating and terminating non-measured calls among Hubs. Basic Ports may also be used to originate measured calls to any location and to terminate measured calls from Measured Ports and/or Measured Remote Ports.

- Measured Port

A Port located at a Hub, capable of originating only measured calls to any location, or terminating calls from Measured Ports, Measured Remote Ports, and Basic Ports.

- Measured Remote Port

A Port located at a Remote Location. Measured Remote Ports and Rate Option 1 Measured Remote Ports are capable of originating or terminating only measured calls to or from any location. A Rate Option 2 Measured Remote Port is capable of terminating only measured calls via a Port Access Telephone Number. Measured Remote Ports are designated as Rate Option 1 to distinguish between the two types when a Customer requests both types of calling capabilities.

Port Access Telephone Number (PATN)

A Specifically designated telephone number that can be dialed from any location within the state of New Hampshire to connect a call to VTNS Measured or Measured Remote Ports. Charges for calls to a PATN are billed to the Port or Ports associated with the number. Calls made to a PATN will generally not exceed 30 calls per second. A high Volume PATN provides the capacity to receive calling volumes up to, but generally not exceeding 125 calls per second.

2.12. DEFINITIONS (Cont'd)

Premises

A building or buildings on continuous property (except railroad rights-of-way, etc.) not separated by a public thoroughfare.

Protective Circuitry

Discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect CUSTOM NETWORK SERVICES from harm.

Rate Center

A specified geographical location used for determining mileage measurements.

Rate Center Area

The area which encompasses the territories identified by the central office codes that are assigned to a rate center.

Registered

A term which means compliance with and approval within the Registration Program.

Registration Program

Part 68 of the FCC's Rules and Regulations which permits Customer equipment to be directly connected to CUSTOM NETWORK SERVICES and certain circuits without the requirement for protective circuitry.

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.1. DESCRIPTION

3.1.1. General

AT&T Commercial Long Distance Service permits Customer dialed outward calling from stations within the State of New Hampshire. Customers who subscribe to AT&T's intrastate Commercial Long Distance Service are automatically subscribers to AT&T's interstate Commercial Long Distance Service as outlined in AT&T Business Services Guide.

As specified in AT&T Business Services Guide a Customer Account Charge may apply to each AT&T Commercial Long Distance Service Main Billed account having one or more local exchange service switched access lines subscribed to AT&T as the primary interexchange carrier. The Customer Account Charge is equal to the difference between the Customer account minimum monthly charge specified in the above specified tariff and the actual charges for AT&T tariffed services billed to the Customer's AT&T Commercial Long Distance Service Main Billed Account when the actual charges incurred for the billing month are less than the Customer Account Minimum Monthly Charge.

AT&T Commercial Long Distance Service is a switched network service which provides for Dial Station and Customer Dialed/Operator Dialed Calling Card Station calls originated on a line for which the subscriber pays a rate that is described as a business or commercial rate in the applicable local exchange service tariff for switched services. In addition, AT&T Commercial Long Distance Service includes Customer Dialed and Operator Dialed Calling Card Station calls billed to Commercial Calling Cards as defined in Section 1 preceding. The rates and regulations for all other Calling Card calls are specified in AT&T Tariff P.U.C. No. 12. The rates and regulations for Dial Station calls other than AT&T Commercial Long Distance Service are specified in AT&T Tariff P.U.C. No. 12.

AT&T Commercial Long Distance Service rates do not apply to:

1. Conference Service Calls
2. Person to Person and other Operator Handled calls
3. Calls to 700, 800 or 900 Special Service Codes
4. Mobile or Cellular Calls
5. Calls to Directory Assistance

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.2. RATE DETERMINATION

A. Initial Period

The initial period for all AT&T Commercial Long Distance Service calls is 1 minute or fraction thereof.

B. Additional Period

The additional period rates are for each additional 1 minute or fraction thereof that the telephone connection continues beyond the initial period.

C. Application Periods

Application periods shown below apply for AT&T Commercial Long Distance Service messages.

Application Periods

| <u>Rate<br/>Period</u> | <u>Times Applicable</u> |                                  | <u>Days Applicable</u> |
|------------------------|-------------------------|----------------------------------|------------------------|
|                        | <u>From</u>             | <u>To, But Not<br/>Including</u> |                        |
| 1                      | 8:00 AM                 | 5:00 PM                          | Monday - Friday        |
| 2                      | 5:00 PM                 | 11:00 PM                         | Sunday - Friday        |
| 3                      | 11:00 PM                | 8:00 AM                          | All days               |
|                        | 8:00 AM                 | 11:00 PM                         | Saturday               |
|                        | 8:00 AM                 | 5:00 PM                          | Sunday                 |

D. Holidays

Christmas Day (December 25), Thanksgiving (the fourth Thursday in November), and Martin Luther King Day. Rate Period 2 rates apply unless lower rates would normally apply.

By: Leslie Buford-Tariff Administrator  
227 W. Monroe St., Chicago, IL 60606

---

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.2. RATE DETERMINATION (Cont'd)

E. Timing of Messages

The time when connection is established, determined in accordance with the time, standard or daylight saving, legally or commonly in use at the point where the calling station is located, determines whether Rate Period 1, 2 or 3 rates apply. When the connection is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.

On Dial Station Calls chargeable time begins when connection is established between the calling and the called party.

Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telecommunications network.

F. Computing of Charges

If the computed charges for a call include a fraction of a cent, the fractional amount is dropped.

G. Directory Assistance Charge

Directory Assistance Charge apply as specified in Section 1, Paragraph 1.6.6. of this tariff.

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.3. Rates and Charges

3.3.1. General

Calling Card Station

Charges may be billed to an authorized Commercial Calling Card number. Customer Dialed Calling Card Station rates apply as specified in P.U.C. No. 4 when calls are originated as specified below.

1. Customer Dialed/Automated - The Customer dials the appropriate operator code (e.g., 10+10+288+0) plus the telephone number desired and completes the call without the assistance of a Company operator and the call is billed to a Calling Card, or
  2. Customer Dialed and Operator Assisted - The Customer dials the appropriate AT&T access code (e.g., 0, 10+10+288+0, an AT&T designated number for completion of Customer Dialed Calling Card Calls) plus the telephone number desired and is about to input the Calling Card number but uses Company operator assistance that is limited to recording the Calling Card number for billing purposes, or
  3. Customer Dialed and Operator Must Assist - The Customer dials the appropriate AT&T access code (e.g., 0, 10+10+288+0, or an AT&T designated number for completion of Customer Dialed Calling Card Calls)) plus the desired telephone number and 1) the Local Exchange Operator Services equipment capability precludes the Customer from completing the call without the assistance of a Company operator and the call is billed to the Customer's Calling Card, or 2) the Customer's Calling Card number, when input, is not the accepted length to be automatically validated and requires operator intervention.
12. In order to control fraud, the Company may refuse to accept a Calling Card which is determined to be invalid.

3. AT&T COMMERCIAL LONG DISTANCE SERVICE

3.3. Rates and Charges (Cont'd)

3.3.1. General (Cont'd)

Calling Card Station (Cont'd)

13. Each of the types of calls specified in 1., 2. and 3. preceding is further classified based upon the types of Calling Card that is used for billing purposes, as follows:

- AT&T CIID/891 Card - An AT&T Commercial Calling Card which contains a billing number issued to AT&T in the Card Issuer Identifier (CIID) "891" international or "personal choice" format. The CIID Card number consists of a 10 digit account number and 4 digit personal identification number (PIN). The 10 digit account number is composed of a Bellcore assigned 6 digit code (e.g., 836100, 837100, 838100) which identifies AT&T as the Card issuer, combined with a 4 digit code assigned by AT&T. The Card numbering format is not based on a telephone line number. The "891" Card number adheres to the standards of the International Telephone and Telegraph Consultative Committee (CCITT). The "891" Card consists of 89 (telecommunications card), 1 (world zone 1), carrier identifier (e.g., 288 or 253), a variable account field (e.g., 10 digits), a check digit (may or may not be required in the future for data processing purposes), and a PIN (may vary from 4 to 16 digits).
- Local Exchange Company Calling Card - a calling card issued by a Local Exchange Company that is accepted by AT&T for the billing of calls over its network.
- Commercial Credit/Charge Card - a credit/charge card issued by a non-carrier that is accepted by AT&T for the billing of calls over its network.

See Price List for Rates and Charges.

4. AT&T SDN ONENET SERVICE

4.1. AT&T SDN ONENET SERVICE

4.1.1. General

AT&T SDN OneNet Service permits outward calling, inward calling or a combination of both from a single or multiple Customer locations in the state of New Hampshire. The outbound portion of AT&T SDN OneNet Service is a custom switched telecommunications service which permits a Customer to establish a communications path between two stations by using uniform dialing plans. AT&T SDN OneNet Service is available where facilities and operating systems exist. AT&T SDN OneNet customers may choose either AT&T MEGACOM 800 or AT&T 800 READYLINE for their inward calling. AT&T SDN OneNet allows Customers to bundle certain inbound and outbound usage for discounting and billing purposes.

Intrastate AT&T SDN OneNet Service is an add-on to interstate AT&T SDN OneNet Service. All terms and conditions, including service establishment charges, features and functions, discounts, monthly charges and any charges other than intrastate usage charges are described in the AT&T SDN OneNet Service Guide.

4.2. RATES AND CHARGES

AT&T SDN OneNet Service charges are recurring usage charges applying to all completed calls.

1. The following Schedule A, B, C, and M rates also apply for all calls between stations that access the same AT&T central office.
2. Application periods shown below apply for AT&T SDN OneNet Service messages:

| Rate<br>Period | Times Applicable |                          | Days Applicable |
|----------------|------------------|--------------------------|-----------------|
|                | From             | To, But Not<br>Including |                 |
| 1              | 8:00 AM          | 5:00 PM                  | Monday - Friday |
| 2              | 5:00 PM          | 11:00 PM                 | Sunday - Friday |
|                | 8:00 AM          | 11:00 PM                 | Saturday        |
|                | 8:00 AM          | 5:00 PM                  | Sunday          |
| 3              | 11:00 PM         | 8:00 AM                  | All days        |

3. When the computed usage charges or credit for such charges include one-half cent or more, the fraction is rounded up to the next highest cent. Fractions of less than one-half cent are rounded down to the next whole cent, unless the cost of the call would total less than \$ .01. The minimum charge for each intrastate SDN OneNet call is \$ .01.

See Price List for Rates and Charges.

5. AT&T CUSTOMNET<sup>sm</sup> SERVICE\*

5.1. DESCRIPTION

5.1.1. General

AT&T CustomNet Service is a custom switched telecommunications service which permits Customer dialed outward calling from single or multiple stations in the State of New Hampshire. AT&T CustomNet Service includes an AT&T CustomNet Simply Better Pricing Option, and Inward Calling Option, Option S and AT&T CustomNet Service Flexible Pricing Plan. Intrastate AT&T CustomNet Service is an add-on to the interstate AT&T CustomNet Service and is available only to Customers who subscribe to the interstate service provided in the AT&T Business Service Guide. AT&T CustomNet Service rates and charges apply to calls completed from AT&T CustomNet Service central offices to called stations. Calls originated over special or cellular access will be treated as Service Type 1 locations for the application of tariff rates, charges and regulations.

AT&T CustomNet Service calls are Direct Dial calls completed without the assistance of a Company operator, and do not include:

- Directory Assistance calls
- Conference calls
- Calls to 700, 800 or 900 Special Service Codes

AT&T CustomNet Service is provided on a Customer's existing local exchange telephone number, which is not obtained under this tariff.

\*AT&T CustomNet Service is not available, either under this tariff or through any AT&T Contract Tariff or contract referencing this tariff to new or existing Customers who did not have it on order before December 5, 2001. Existing Customers with AT&T CustomNet Service in effect or on order prior to December 5, 2001 may continue under existing conditions.

5. AT&T CUSTOMNET SERVICE

5.2. REGULATIONS

5.2.1. Provision of AT&T CustomNet Service

AT&T CustomNet Service is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others. Customers who subscribe to AT&T CustomNet may not subscribe to any other outward service calling plan for intrastate AT&T calls.

A. Engineering

AT&T CustomNet Service will be engineered to meet its transmission parameters.

B. Installation

Installation of AT&T CustomNet Service will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the service which it provides.

5.2.2. Availability

AT&T CustomNet Service is available at designated AT&T CustomNet Service central offices as specified in the AT&T Business Service Guide.

5.2.3. Transfer or Assignment

AT&T CustomNet Service, including any associated telephone number(s), may be transferred or assigned to a new Customer. See the AT&T Business Service Guide.

5. AT&T CUSTOMNET SERVICE

5.3. ACCESS

5.3.1. General

Local Exchange Switched Service access is required to access AT&T CustomNet Service. The Customer is responsible for obtaining the local exchange switched service access line from the Local Exchange Company. The Local Exchange Service Access line must be pre-subscribed to AT&T as the primary interexchange carrier. AT&T CustomNet Service is available via switched access lines in local exchanges served by the Local Exchange Companies specified in the AT&T Business Service Guide; via cellular access provided by a cellular access provider selected by the Customer and via special access at designated AT&T CustomNet Service Central Office.

5.3. RATE DETERMINATION

5.3.1. General

AT&T CustomNet Service rates are usage-based. Intrastate usage charges are billed in arrears, and apply to all calls completed on AT&T CustomNet Service. Intrastate usage charges on AT&T CustomNet Service are determined by the following:

A. Application Periods

| Rate<br>Period | Times applicable |                              | <u>Days Applicable</u> |
|----------------|------------------|------------------------------|------------------------|
|                | <u>From</u>      | <u>To, But Not Including</u> |                        |
| 1              | 8:00 AM          | 5:00 PM                      | Monday - Friday        |
| 2              | 5:00 PM          | 11:00 PM                     | Sunday - Friday        |
| 3              | 11:00 PM         | 8:00 AM                      | All days               |
|                | 8:00 AM          | 11:00 PM                     | Saturday               |
|                | 8:00 AM          | 5:00 PM                      | Sunday                 |

B. Initial Period

The initial period for Direct Dial calls for Service Type 1 and Service Type 2 on AT&T CustomNet Service is 1 minute.

C. Additional Period

The additional period for Direct Dial calls for Service Type 1 and Service Type 2 on AT&T CustomNet Service is 1 minute.

5. AT&T CUSTOMNET SERVICE

5.6. OPTION S

5.6.1. Usage Charges

Option S has separate rate schedules for Inward Calling, Outward Calling and the AT&T CIID/891 Card. The Option S Customer must subscribe to the interstate AT&T CustomNet Service-Options S as described in AT&T Business Services Guide. All terms and conditions, features, functions, discounts, installation and monthly charges except intrastate usage will apply as specified in AT&T Business Services Guide. Usage charges for Option S calls are charged at a 30 second minimum per call. Time over the initial 30 seconds will be charged in 6 second increments of fraction per call.

The Option S Customer must subscribe to a Net Monthly Minimum Revenue Commitment under Option I, Option II, Option III, Option IV, Option V or Option VI specified in AT&T Business Services Guide.

AT&T CustomNet Service Option S does not include the Combine Outward Calling and Inward Calling Discount Option or any volume discounts associated with AT&T CustomNet Service. In addition, Option S is not available to AT&T Customnet Service Type 2 locations.

5.7 AT&T CustomNet Simply Better Flexible Pricing Plan

5.7.1. General

The AT&T CustomNet Simply Better Flexible Pricing Plan permits Customers to select the Inward, Outward and AT&T 891/CIID Calling Card usage rate schedules specified in Section 13.10.2. following, in lieu of the switched usage rate schedules specified in Sections 13.13.1.A, and 13.6.1.A & D preceding. The intrastate AT&T CustomNet Simply Better Flexible Pricing Plan is an add-on to the interstate AT&T CustomNet Simply Better Flexible Pricing Plan and all discounts, terms and conditions, features, functions and monthly charges may be found in AT&T Business Services Guide. The AT&T CustomNet Simply Better Flexible Pricing Plan intrastate usage rate schedules provide postalized usage rates for all times of day for all types of calling offered under the AT&T CustomNet Simply Better Flexible Pricing Plan.

The following services or call types may appear on the AT&T CustomNet Simply Better Flexible Pricing Plan bill, but will not receive AT&T CustomNet Simply Better Flexible Pricing Plan rates.

- AT&T Teleconference Service
- Directory Assistance/Toll-Free Directory Assistance
- 900 Multiquest
- Operator Assisted Calls

6. AT&T UNIPLAN<sup>sm</sup> SERVICE\*

6.1. DESCRIPTION

6.1.1. General

AT&T UniPlan Service is a telecommunications service which permits outward calling, inward calling or a combination of both from a single or multiple locations of the Customer in the state of New Hampshire. Intrastate AT&T UniPlan Service is an add-on to the interstate AT&T UniPlan Service and is automatically available to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. The Customer will receive a single monthly bill for all locations billed to the same Main Billed Account and is financially responsible for all locations included under that account. Customers who subscribe to AT&T UniPlan Service may not subscribe to any other outward service calling plan under the Main Billed Account. AT&T UniPlan Service includes only direct dial calls completed without the assistance of a Company operator. Customer dialed card calls are allowed for calls billed to the Customer's AT&T UniPlan Main Billed Account. AT&T UniPlan Service does not include:

- Person calls,
- Collect calls,
- Third Number Billed calls,
- Conference calls, or
- Calls to 700, 800 or 900 Special Service Codes.

\* Beginning January 18, 1998, AT&T UniPlan Service is not available to newly subscribing Customers. Existing Customers with AT&T UniPlan Service in effect or Customers with AT&T UniPlan Service on order prior to January 18, 1998 may continue their current AT&T UniPlan Service under existing conditions.

6. AT&T UNIPLAN SERVICE

6.2. REGULATIONS

6.2.1. Provision of AT&T UniPlan Service

AT&T UniPlan Service is provided only where billing capability permits. AT&T UniPlan Service is offered under this tariff subject to the availability of suitable service components furnished by this company or obtained from others.

A. Engineering

AT&T UniPlan Service will be engineered to meet established transmission parameters.

B. Mileage Measurements

Mileage for Special and for Switched Access for AT&T Outbound Uniplan Service calls is the distance in airline miles measurement between: the V&H coordinates for the rate centers associated with the originating and terminating stations.

For APN numbers, mileage will be calculated from the AT&T Central Office. Originating APN calls are measured from the V&H coordinates of the originating AT&T Central Office and terminating APN's are measured from the V&H coordinates of the terminating AT&T Central Office.

C. Installation

Installation of AT&T UniPlan Service will usually be made during normal working hours.

D. Maintenance

The Company will maintain and repair the service which it provides.

6. AT&T UNIPLAN SERVICE

6.3. ACCESS

6.3.1. General

A. Access to AT&T UniPlan Service

Access to the AT&T UniPlan Service central office is the responsibility of the Customer. A central office connection, as provided under AT&T Business Services Guide, is required to connect access to AT&T UniPlan Service. Access may be furnished by this Company as specified in AT&T Business Services Guide. The Customer also has the option of providing his or her own access facilities.

An access line connects a Customer premises or a Customer's private network to AT&T UniPlan Service. There are two type of access lines: Special Access and Local Exchange Service Switched Access. Special Access and Local Exchange Service Switched Access may be furnished at the same location or different locations.

1. Special Access - AT&T UniPlan Service may only be accessed via Terrestrial 1.544 Mbps Local Channels and, if required, ACCUNET® T1.5 Interoffice Channels. A minimum of one Customer location must be connected to AT&T UniPlan Service via Special Access at all times. At the time the Customer places the initial order for AT&T UniPlan Service, the Customer must also place an order for at least one Terrestrial 1.544 Mbps Local Channel from AT&T Business Services Guide or from another supplier of such facilities and, if necessary, an Interoffice Channel from AT&T Business Services Guide. In addition, the Customer's order must include the appropriate Office Connections from AT&T Business Services Guide.

6. AT&T UNIPLAN SERVICE

6.3. ACCESS (Cont'd)

6.3.1. General (Cont'd)

2. Local Exchange Service Switched Access - When local exchange service switched access is required to access AT&T UniPlan Service, the Local Exchange Service Switched Access line must be pre-subscribed to AT&T as the primary interexchange carrier. In the event the Customer changes its primary interexchange carrier to a carrier other than AT&T, AT&T will terminate the Customer's AT&T UniPlan Service on all specified switched access lines when AT&T is notified of the change. Discontinuance will be effective of the date the Customer notifies AT&T of the change.

6.4. RATES AND CHARGES

6.4.1. General

AT&T UniPlan Service outbound rates are usage-based. Intrastate usage charges are billed in arrears, and apply to all calls completed on AT&T UniPlan Service. Intrastate outbound usage charges on AT&T UniPlan Service is determined by the following rate schedule.

A. Rate Determination

Outbound usage rate determination of the AT&T UniPlan Service is based upon the following:

1. Application Periods

| <u>Rate Period</u> | <u>From</u> | <u>Time Applicable To But Not Including</u> | <u>Days Applicable</u> |
|--------------------|-------------|---|------------------------|
| 1                  | 8:00 AM     | 5:00 PM                                     | Monday - Friday        |
| 2                  | 5:00 PM     | 11:00 PM                                    | Sunday - Friday        |
| 3                  | 11:00 PM    | 8:00 AM                                     | All days               |
|                    | 8:00 AM     | 11:00 PM                                    | Saturday               |
|                    | 8:00 AM     | 5:00 PM                                     | Sunday                 |

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE

7.1. DESCRIPTION

7.1.1. General

AT&T Virtual Telecommunications Network Service is a custom-designed voice telecommunications service which meets specific Customer requirements. Intrastate AT&T Virtual Telecommunications Network Service, in the State of New Hampshire, is an add-on to the interstate Virtual Telecommunications Network Service and is available only to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. Customers shall be entitled to the intrastate discounts to the extent set forth in their interstate VTNS contract arrangements. These intrastate discounts shall apply against Customer's intrastate charges and shall not be applied against a Customer's interstate charges. Intrastate voice transport provided under AT&T Tariff P.U.C. No. 1, is offered to eligible Virtual Telecommunications Network Service Customers who have a requirement for intrastate voice telecommunications. All terms and conditions, features, functions, discounts, installation and monthly charges will apply as specified in AT&T Business Services Guide. AT&T Virtual Telecommunications Network Service intrastate usage charges are specified in the Price List Section of this tariff.

(C)

7.2. MEASURED CHARGES

7.2.1. General

Measured Charges are the usage-sensitive elements of VTNS and apply to all intrastate VTNS calls. Measured Charges are billed in arrears.

Mileage measurement is the distance in airline miles between locations. The following mileage measurements apply:

1. For calls between Port locations, for calls from Non-Port locations to port Locations, for calls from Port locations to Non-Port locations and for calls between Non-Port locations, the mileage is the distance between the V&H coordinates associated with the originating and terminating rate centers.
2. For APN numbers, mileage will be calculated from the AT&T Central Office. Originating APN calls are measured from the V&H coordinates of the originating AT&T Central Office and terminating APN's are measured from the V&H coordinates of the terminating AT&T Central Office.

A. Calculation of Airline Mileage

Airline mileage is calculated as specified in AT&T Business Services Guide.

7. AT&T VIRTUAL TELECOMMUNICATIONS NETWORK SERVICE

7.3. RATES AND CHARGES

7.3.1. General

Intrastate AT&T Virtual Telecommunications Network Service voice transport is covered by this tariff and is offered to eligible Virtual Telecommunications Network Service Customers who have a requirement to make intrastate calls. The associated access lines, network usage and features, other than the switched voice intrastate network usage, are covered by the applicable F.C.C. tariffs.

AT&T Virtual Telecommunications Network Service charges are recurring usage charges applying to all completed calls.

1. AT&T Virtual Telecommunications Network Service calls are rated using one of the following schedules except as specified in 7.12., following. The charges for all calls during a billing month will be totaled.
2. The following Schedule A0, B0, C0, D0, E0 and R0 rates apply for calls between stations which access the same AT&T central office.
3. Application periods shown below apply for AT&T Virtual Telecommunications Network Service messages:

| <u>Rate<br/>Period</u> | <u>Times Applicable</u> |                                  | <u>Days Applicable</u> |
|------------------------|-------------------------|----------------------------------|------------------------|
|                        | <u>From</u>             | <u>To, But Not<br/>Including</u> |                        |
| 1                      | 8:00 AM                 | 5:00 PM                          | Monday - Friday        |
| 2                      | 5:00 PM                 | 11:00 PM                         | Sunday - Friday        |

8. ACC BUSINESS SERVICE

8.1. DESCRIPTION

8.1.1. General

ACC Business Service is a Custom Network Service that permits Customer-Dialed outward calling, inward calling and calling card calls from one or more switched or dedicated Customer locations in the state of New Hampshire. ACC Business Service is an add-on to the interstate ACC Business Service which is described in the AT&T Business Service Guide. All terms and conditions, features and functions, discounts, and any charges other than the intrastate usage charges are specified in the AT&T Business Service Guide.

SWITCHED ACCESS

ACC Business Service is a non-AT&T branded monthly service which permits Customers to contract for one of four basic rates embedded in a monthly revenue commitment. The commitments are as follows:

12 Month Basic Rates Based on \$100 Revenue Commitment\*  
15 Month Basic Rates Based on \$150 Revenue Commitment\*  
12 Month Saver Rates Based on \$100 Revenue Commitment\*  
15 Month Saver Rates Based on \$150 Revenue Commitment\*

\* ACC Business Service Switched Access term rate plans referenced above are not available under this tariff or through any AT&T Contract Tariff or contract referencing this tariff to new Customers. Existing Customers of these plans in effect or on order prior to November 14, 2002 will continue under their existing rate plan.

DEDICATED ACCESS

| <u>TERM PLAN</u> | <u>TIER</u> | <u>MMUC(Minimum Monthly Usage Commitment)</u> |
|------------------|-------------|---|
| 12 Month         | 1           | \$200 (I)                                     |
|                  | 2           | \$250 (I)                                     |
|                  | 3           | \$500 (I)                                     |
|                  | 4           | \$750 (N)                                     |
| 24 Month         | 1           | \$200 (I)                                     |
|                  | 2           | \$250 (I)                                     |
|                  | 3           | \$500 (I)                                     |
|                  | 4           | \$750 (N)                                     |

The ACC Business Service Customer must subscribe to the interstate ACC Business Service as described in the AT&T Business Service Guide. The ACC Business Service Customers have the option of subscribing to an ACC Business Service Term Plans as described in the AT&T Business Service Guide.

13. AT&T 800 READYLINE<sup>®</sup> AND AT&T GOLD<sup>sm</sup> SERVICE - SWITCHED

13.1. DESCRIPTION

13.1.1. General

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched are custom switched telecommunications services which permit inward 800 number calling from stations located in the State of New Hampshire to a Customer's station within the State. Intrastate AT&T 800 READYLINE and AT&T 800 Gold Service - Switched are additions to the interstate AT&T 800 READYLINE and AT&T 800 Gold Service and are available only to customers who subscribe to the interstate service provided in AT&T Business Services Guide. AT&T 800 READYLINE calls are completed to a telephone number associated with the Customers existing local exchange service. AT&T 800 READYLINE calls on an access line are completed on an access line provided in AT&T Business Services Guide. AT&T 800 Gold Service - Switched is available in the following alternative packages: (a) AT&T 800 Gold Service - Switched includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee, Call Completion Guarantee, and expedited provisioning; (b) Option 1, includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee, and standard provisioning; (c) Option 2, includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee and expedited provisioning. The Call Completion Guarantee, specified in AT&T Business Services Guide, is not available either with Option 1 or Option 2. AT&T 800 READYLINE and AT&T 800 Gold Service - Switched rates and charges apply to calls completed from calling stations in the entire state. Customers may receive calls from the entire state.

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

13. AT&T 800 READYLINE AND AT&T 800 GOLD SERVICE - SWITCHED

13.1. DESCRIPTION (Cont'd)

13.1.1. General (Cont'd)

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched consist of an AT&T 800 READYLINE or an AT&T 800 Gold Service - Switched telephone number associated with a Customer's station. Access to the Customer's station is not obtained under this tariff.

13.2. REGULATIONS

13.2.1. Provision of AT&T 800 READYLINE and AT&T 800 Gold Service - Switched

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched are offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

A. Engineering

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched will be engineered to meet established transmission parameters.

B. Installation

Installation of AT&T 800 READYLINE and AT&T 800 Gold Service - Switched will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the service which it provides.

13.2.2. Transfer or Assignment

AT&T 800 READYLINE and AT&T 800 Gold Service - Switched, including any associated AT&T 800 READYLINE and AT&T 800 Gold Service - Switched number, may be transferred or assigned to a new Customer. See AT&T Business Services Guide.

13. AT&T 800 READYLINE AND AT&T 800 GOLD SERVICE - SWITCHED

13.2. REGULATIONS (Cont'd)

13.2.3. Retention of AT&T 800 READYLINE or AT&T 800 Gold Service - Switched Telephone Number

Customers may retain the same AT&T 800 READYLINE and/or AT&T 800 Gold Service - Switched telephone number when moving to another location or changing to another AT&T 800 Service.

13.2.4. Guarantees

A. AT&T 800 Gold Service Uninterrupted Service Guarantee

An alternative routing arrangement described as AT&T 800 Gold Service Uninterrupted Service Guarantee applies to AT&T 800 Gold Service - Switched. This guarantee will apply if the Customer is unable to receive AT&T 800 Gold Service - Switched calls or when an interruption occurs other than the Customer not being able to receive calls. For the period of the interruption, AT&T will implement the Customer's choice of one of the following options as a temporary alternative:

1. AT&T will route the Customer's AT&T 800 Gold Service - Switched calls to an announcement at no charge until the trouble condition is repaired.
2. AT&T will route the calls to one of the AT&T 800 Services to which the customer currently subscribes per AT&T Business Services Guide.

13. AT&T 800 READYLINE AND AT&T 800 GOLD SERVICE - SWITCHED

13.2. REGULATIONS (Cont'd)

13.2.4. Guarantees (Cont'd)

A. AT&T 800 Gold Service Uninterrupted Service Guarantee (Cont'd)

- a. If the AT&T 800 Gold Service - Switched interruption occurs due to a failure of an AT&T tariffed service, and the Customer is unable to receive AT&T 800 Gold Service - Switched calls on the interrupted service, AT&T will apply a daily credit to the bill for the alternative AT&T 800 Service to which the Customer currently subscribes for each day, or portion thereof, that the Customer's service remains interrupted. The amount of the daily credit will be equal to the average daily charges of the interrupted service for either the calendar month immediately prior to the interruption or, if no usage charges exist in that prior month, for the calendar month of the interruption.
- b. If the AT&T 800 Gold Service - Switched interruption occurs due to the failure of an AT&T tariffed service, and the Customer is still able to receive AT&T 800 Gold Service - Switched calls on the interrupted service, the Customer is responsible for all usage charges incurred as a result of these AT&T 800 calls pursuant to the tariffed rate schedule of the alternate AT&T 800 Service.
- c. If the AT&T 800 Gold Service - Switched interruption occurs due to the failure of power, equipment or systems not provided by the Company, then the Customer is responsible for all usage charges incurred as a result of the AT&T 800 calls pursuant to the tariffed rate schedule of the alternative AT&T 800 Service.

Uninterrupted Service Guarantee does not apply under conditions specified in AT&T Business Services Guide.

P.U.C. NO. 1  
SECTION 13  
ORIGINAL PAGE 5

Issued: March 10, 2003  
Effective: April 10, 2003  
By: Leslie Buford-Tariff Administrator  
227 W. Monroe St., Chicago, IL 60606

---

13. AT&T 800 READYLINE AND AT&T 800 GOLD SERVICE - SWITCHED

13.2. REGULATIONS (Cont'd)

13.2.4. Guarantees (Cont'd)

B. AT&T 800 Gold Service Repair Guarantee

The AT&T 800 Gold Service Repair Guarantee applies to AT&T 800 Gold Service - Switched. The AT&T 800 Gold Service Repair Guarantee is in addition to the AT&T 800 Gold Service Uninterrupted Service Guarantee.

1. AT&T 800 Gold Service Repair Guarantee

AT&T will repair the interruption to AT&T 800 Gold Service - Switched, when not provided on a dedicated access line, within a one hour interval from the time the Customer reports the interruption or a credit will apply. The credit will be based on the total usage charges of the 800 number termination(s) for either the calendar month immediately prior to the interruption or, if no usage charge exists in that prior month, for the calendar month of the interruption. AT&T will apply the credit to the Customer's bill in the amount shown in the following table:

| <u>Length of Interruption</u> | <u>Credit Per Trouble</u> |
|-------------------------------|---------------------------|
| Over 1 hour                   | 13.0%                     |

If more than one interruption is reported on an 800 number termination in a given month, each subsequent interruption is considered independently in calculating total credits for that 800 number termination. Cumulative credit allowances may not exceed 100% of the total usage charge of the number termination of the calendar month of the interruption. Credit may not be carried over to subsequent months.

13. AT&T 800 READYLINE AND AT&T 800 GOLD SERVICE - SWITCHED

13.2. REGULATIONS (Cont'd)

13.2.4. Guarantees (Cont'd)

2. AT&T will repair the interruption to AT&T 800 Gold Service - Switched provided on a dedicated access line within five hours from the time the Customer reports the interruption to AT&T between the hours of 8AM to 5PM (local time), Monday through Friday or a credit will apply. The credit will be based on the total usage charges of the 800 number termination(s) for either the calendar month immediately prior to the interruption or for the month in which the interruption occurs, whichever is higher. AT&T will apply the credit to the Customer's bill in the amount shown in the following table:

| <u>Length of Interruption</u> | <u>Credit Per Trouble</u> |
|-------------------------------|---------------------------|
| Over 5 hours                  | 13.0%                     |

13.3. RATES AND CHARGES

13.3.1. General

The rates for AT&T 800 READYLINE and AT&T 800 Gold Service-Switched consist of rate elements which are usage-based. Usage charges are billed in arrears. Usage is billed per AT&T 800 READYLINE or AT&T 800 Gold Service-Switched telephone number and are calculated on a per call basis. Individual calls will be measured with a minimum initial period of 30 seconds and additional 1 second increments, rounded to the next highest second or full increment. AT&T 800 READYLINE is also provided with Connected Pricing as described in Section 6.4.4. of AT&T Business Services Guide.

9. AT&T BUSINESS NETWORK SERVICE

9.1. DESCRIPTION

9.1.1. General

AT&T Business Network Service is a Custom Network Service which permits outward and inward calling from Customer stations located in the state of New Hampshire. AT&T Business Network Service allows the Customer to integrate their long distance, including directory assistance, card and local usage.

The AT&T Business Network Service is an add-on to interstate AT&T Business Network Service. All terms and conditions, installation charges, discounts, features and functions, monthly charges, and any charges other than intrastate usage, are specified in this Company's Tariff F.C.C. No. 1.

9.2. RATES AND CHARGES

This section contains the rates and charges for AT&T Business Network Service Outbound Calling, Inbound Calling and Calling Card Calls.

9.2.1. Network Connection Call Rating - ABN Service calls are differentiated and rated according to the access arrangement ordered by the Customer as follows:

- A. Fully Connected - the transmission path for outbound calls must originate and terminate via Company provided, Company affiliated and/or Company-owned access facilities. The transmission path for inbound toll-free calls must originate and terminate via Company-provided, Company-affiliated and/or Company-owned access facilities.
- B. Partially Connected - The transmission path for outbound calls must originate or terminate via Company-provided, Company-affiliated and/or Company-owned access facilities. The transmission path for inbound toll-free calls must originate or terminate via Company-provided, Company-affiliated and/or Company-owned access facilities.
- C. Standard - The transmission path neither originates nor terminates via Company-provided, Company-affiliated and/or Company-owned access facilities.

See Price List for Rates and Charges.

10. AT&T ALL IN ONE SERVICE

10.1. DESCRIPTION

10.1.1. General

AT&T All In One Service is a Custom Network Service that permits Customer dialed calling from and to single or multiple Customer locations in the State of New Hampshire.

AT&T All In One Service is an add-on to interstate AT&T All In One Service and all terms and conditions described in the AT&T Business Service Guide, including installation charges, features and functions, and any other charges except intrastate usage, are incorporated here by reference and shall apply to intrastate AT&T All In One Service. AT&T All in One Service is furnished where facilities and billing capabilities permit.

10.2. REGULATIONS

10.2.1. Availability

AT&T All In One Service is available via Local Exchange switched access and via cellular access. The Customer is responsible for obtaining the Local Exchange Service Access Line. The Local Exchange Service Line must be pre-subscribed to AT&T as the primary interexchange carrier. The Customer's long distance cellular access must be pre-subscribed to AT&T as the primary interexchange carrier.

AT&T All In One Service is provided on a monthly basis and the Customer will receive a single monthly bill for all locations billed to the same Main Billed Account. The Customer is financially responsible for all locations included under the Customer's Main Billed Account.

10. AT&T ALL IN ONE SERVICE

10.3. RATES AND CHARGES

This section contains the rates and charges for AT&T All in One Service.

10.3.1. Application of Charges

Usage charges apply to all completed calls and are based upon the applicable rate schedules. Usage charges are billed in arrears. The chargeable time for All In One Service calls is determined by the duration of the call. However, All In One Service calls have a 60-second minimum time requirement.

10.3.2. Rate Methodology

1) Rate Plans A-E

For Inward and Outward InterLATA and Intrastate and Customer Dialed AT&T CIID/891 Calling Card direct dial call types, the rate per minute applies for all days of the week including holidays. The chargeable time for All In One Service calls is determined by the duration of the call, billed according to the number of seconds (see example below). All In One Service calls have a 60-second minimum time requirement. Rounding to the nearest whole cent is employed.

Example: (\$0.1000 per minute rate):

Length of call in seconds: 124

Divide by 60 seconds and carry to 4 decimal places:  
 $124 \div 60 = 2.0666$

Multiply by per minute rate and carry to 4 decimal places:  
 $2.0666 \times \$0.1000 = \$0.2066$

Round to nearest whole cent

2) Rate Plans F and K

Calls for Rate Plans F and K are billed in full minute increments. Each call is subject to a 60-second minimum time requirement and is rounded to the next full minute. Rounding to the nearest whole cent is employed.

11. SWITCHED DIGITAL SERVICE

11.1. DESCRIPTION

11.1.1. General

Switched Digital Service (SDS) is furnished to permit the switching and transmission of 56/64 kbps and 384 kbps digital signals that provides for the simultaneous two-way transmission of digital signals between two Customer's premises.

(C)

Switched Digital Service consists of a common user digital network which is furnished between designated AT&T central offices for service within the state. An access line is required between each Customer's premises and the SDS central offices. AT&T central offices are specified in AT&T Business Services Guided. Intrastate Switched Digital Service is an add-on to interstate Switched Digital Service which is described in AT&T Business Services Guide. All terms and conditions, administrative and operational functions, features and functions, discounts, and any charges other than the intrastate usage charges are specified in AT&T Business Services Guide.

11. SWITCHED DIGITAL SERVICE

11.2. ACCESS

11.2.1. General

A special access line or a switched access line (or other access) of the appropriate transmission speed (56/64 kbps or 384 kbps is required to connect a Customer's premises to a SDS (include 56/64 kbps) or terrestrial 1.544 (includes 384 kbps) central office. Access lines are connected to an office connection as set forth in AT&T Business Services Guide.

(C)  
(C)  
(C)

Access lines are connected at the AT&T central office for switching to:

- another access line for communications between two Customer premises served by the same AT&T central office, or
- the common user digital network for communications between two Customer premises served by different AT&T central offices.

11.3. RATES AND CHARGES

General

The charges for SDS consists of usage charges. Usage charges are a function of use (e.g., per connection or per unit of time). Usage charges will apply for the period that service is furnished. Usage charge will be billed in arrears.

11.3.1. Usage Charges

The applicable usage charges depend on whether a call is between 56/64 kbps or 384 kbps Switched Digital Service central offices within the state or between access lines within 56/64 kbps or 384 kbps Switched Digital Service central offices. A switched access line rate applies to the usage on each switched access line used to originate and/or terminate a 56/64 kbps Switched Digital Service call. Charges vary by the airline mileage between central offices which is determined in AT&T Business Services Guide.

12. AT&T MEGACOM<sup>®</sup> 800 AND AT&T 800 GOLD<sup>sm</sup> SERVICE - NODAL

12.1. DESCRIPTION

12.1.1. General

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal are custom switched telecommunications services which permit inward 800 number calling from stations located in the State of New Hampshire to an AT&T MEGACOM 800 or AT&T Gold Service - Nodal central office. Intrastate service is an add on to the interstate AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal and is available only to Customers who subscribe to the interstate service provided in this Company's Tariff F.C.C. No. 2. AT&T 800 Gold Service - Nodal is available in the following alternative packages: (a) AT&T 800 Gold Service - Nodal includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee, Call Completion Guarantee, and expedited provisioning; (b) Option 1 includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee, and standard provisioning; (c) Option 2 includes AT&T 800 Gold Service Uninterrupted Service Guarantee, Service Repair Guarantee and expedited provisioning. The Call Completion Guarantee, specified in this Company's Tariff F.C.C. No. 2, is not available either with Option 1 or Option 2. AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal rates and charges apply to calls completed from calling stations to AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal central offices. Customers may subscribe to the basic service which includes the entire state. AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

12. AT&T MEGACOM 800 AND AT&T 800 GOLD SERVICE - NODAL

12.2. REGULATIONS

12.2.1. Provision of AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal are offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

A. Engineering

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal will be engineered to meet established transmission parameters.

B. Installation

Installation of AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the service which it provides.

12.2.2. Availability

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal are available at designated AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal central offices as specified in AT&T Business Services Guide.

12.2.3. Transfer or Assignment

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal, including any associated telephone number(s), may be transferred or assigned to a new Customer. See AT&T Business Services Guide.

12. AT&T MEGACOM 800 AND AT&T 800 GOLD SERVICE - NODAL

12.2. REGULATION (Cont'd)

12.2.4. Guarantees

A. AT&T 800 Gold Service Uninterrupted Service Guarantee

An alternative routing arrangement described as AT&T 800 Gold Service Uninterrupted Service Guarantee applies to AT&T 800 Gold Service - Nodal. This guarantee will apply if the Customer is unable to receive AT&T 800 Gold Service - Nodal calls or when an interruption occurs other than the Customer not being able to receive calls. For the period of the interruption, AT&T will implement the Customer's choice of one of the following options as a temporary alternative:

1. AT&T will provide the customer with AT&T 800 Gold Service - Switched.
  - a. If the AT&T 800 Gold Service - Nodal interruption occurs due to a failure of an AT&T tariffed service, and the customer is unable to receive AT&T 800 Gold Service - Nodal calls on the interrupted service, AT&T will waive the usage charges for the temporary AT&T 800 Gold Service - Switched service.
  - b. If the AT&T 800 Gold Service - Nodal interruption occurs due to the failure of power, equipment or systems not provided by the Company, then the Customer is responsible for all tariffed usage charges for the temporary AT&T 800 Gold Service - Switched service.
2. AT&T will route the Customer's AT&T 800 Gold Service - Nodal calls to an announcement at no charge until the trouble condition is repaired.

12. AT&T MEGACOM 800 AND AT&T 800 GOLD SERVICE - NODAL

12.2. REGULATION (Cont'd)

12.2.4. Guarantees (Cont'd)

3. AT&T will route the calls to one of the AT&T 800 Services to which the customer currently subscribes per AT&T Business Services Guide.
  - a. If the AT&T 800 Gold Service - Nodal interruption occurs due to a failure of an AT&T tariffed service, and the Customer is unable to receive AT&T 800 Gold Service - Nodal calls on the interrupted service, AT&T will apply a daily credit to the bill for the alternative AT&T 800 Service to which the Customer currently subscribes for each day, or portion thereof, that the Customer's service remains interrupted. The amount of the daily credit will be equal to the average daily charges of the interrupted service for either the calendar month immediately prior to the interruption or, if no usage charges exist in that prior month, for the calendar month of the interruption.
  - b. If the AT&T 800 Gold Service - Nodal interruption occurs due to a failure of an AT&T tariffed service, and the Customer is still able to receive AT&T 800 Gold Service - Nodal calls on the interrupted service, the Customer is responsible for all usage charges incurred as a result of these AT&T 800 calls pursuant to the tariffed rate schedule of the alternate AT&T 800 Service.
  - c. If the AT&T 800 Gold Service - Nodal interruption occurs due to the failure of power, equipment or systems not provided by the Company, then the Customer is responsible for all usage charges incurred as a result of the AT&T 800 calls pursuant to the tariffed rate schedule of the alternative AT&T 800 Service.

Uninterrupted Service Guarantee does not apply under conditions specified in AT&T Business Services Guide.

12. AT&T MEGACOM 800 AND AT&T 800 GOLD SERVICE - NODAL

12.2. REGULATIONS (Cont'd)

12.2.4. Guarantees (Cont'd)

B. AT&T 800 Gold Service Repair Guarantee

The AT&T 800 Gold Service Repair Guarantee applies to AT&T 800 Gold Service - Nodal. The AT&T 800 Gold Service Repair Guarantee is in addition to the AT&T 800 Gold Service Uninterrupted Service Guarantee.

1. AT&T 800 Gold Service Repair Guarantee

AT&T will repair the AT&T 800 Gold Service - Nodal interruption within five hours from the time the Customer reports an interruption to AT&T or a credit will apply. The credit will be equal to a percentage of the total AT&T 800 Gold Service - Nodal usage charges associated with the interrupted 800 number termination(s) with the interruption for either the calendar month immediately prior to the interruption or, if no usage charges exist in that prior month, for the calendar month of the interruption. AT&T will apply the credit to the Customer's bill in the amount shown in the following table:

| <u>Length of Interruption</u> | <u>Credit Per Trouble</u> |
|-------------------------------|---------------------------|
| Over 5 hours                  | 13.0%                     |

If more than one interruption is reported on an 800 number termination in a given month, each subsequent interruption is considered independently in calculating total credits for that 800 number termination. Cumulative credit allowances may not exceed 100% of the total usage revenue of the number termination of the calendar month of the interruption. Credit may not be carried over to subsequent months.

12. AT&T MEGACOM 800 AND AT&T 800 GOLD SERVICE - NODAL

12.3. RETENTION OF AT&T MEGACOM 800 OR AT&T 800 GOLD SERVICE - NODAL  
TELEPHONE NUMBER

Customers may retain the same AT&T MEGACOM 800 and/or AT&T 800 Gold Service - Nodal telephone number when moving to another location or changing to another AT&T 800 Service.

12.4. ACCESS

12.4.1. General

Access to the AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal central office is the responsibility of the Customer. An Access Connection, as provided under AT&T Business Services Guide, is required to connect access to AT&T MEGACOM 800 or AT&T 800 Gold Service - Nodal. Access may be furnished by this Company as specified in AT&T Business Services Guide. The Customer also has the option of providing his or her own access facilities.

12.5. RATES AND CHARGES

12.5.1. General

AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal rates are usage based. Usage charges are billed in arrears. Usage is billed per AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal telephone number and calculated on a per call basis. Individual calls will be measured with a minimum initial period of 30 seconds and additional 1 second increments, rounded to the next highest second or full increment. AT&T MEGACOM 800 Service is also provided with Connected Pricing as described in the Price List Section of AT&T's Tariff No. 2.

A. Rate Determination

Rate determination of the AT&T MEGACOM 800 and AT&T 800 Gold Service - Nodal rate schedules are as follows:

12.6. AT&T Toll-Free Multimedia Service/AT&T WORLDWORX<sup>SM</sup> 800

12.6.1. General

AT&T Toll-Free Multimedia Service/AT&T WORLDWORX 800 is a feature which allows AT&T MEGACOM<sup>®</sup> 800 Service Customers to add, on a call-by-call basis, digital capability (at speeds of 56 kbps and 64 kbps, where available) as well as voice capability on one 800 number. All terms and conditions, features, functions, discounts, installation and monthly charges except intrastate usage will apply as specified in AT&T Business Services Guide.

15. AT&T 800 PLAN K\*

15.1. DESCRIPTION

15.1.1. General

AT&T 800 Plan K is a custom switched telecommunications service which permits inward 800 number calling from stations located in the state of New Hampshire to a station associated with a Customer's local exchange telephone number. Intrastate AT&T 800 Plan K is an add-on to the interstate AT&T 800 Plan K service and is available only to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. AT&T 800 Plan K rates and charges apply to calls completed from calling stations to a telephone number associated with the Customer's local exchange service access line. Customers may receive calls from the entire state.

AT&T 800 Plan K calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person calls
- Calling Card calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

AT&T 800 Plan K consists of an AT&T 800 Plan K telephone number associated with a Customer's local exchange telephone number. AT&T 800 Plan K is provided on a Customer's existing local exchange telephone number, which is not obtained under this tariff.

- \* Beginning January 11, 1996, Option B is not available to newly subscribed Customers. Existing Customers or Customers with AT&T 800 Plan K - Option B on order may continue their current Option B under existing conditions.

15. AT&T 800 PLAN K

15.2. REGULATIONS

15.2.1. Provision of AT&T 800 Plan K

AT&T 800 Plan K is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

A. Engineering

AT&T 800 Plan K will be engineered to meet its transmission parameters.

B. Installation

Installation of AT&T 800 Plan K will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the service which it provides.

15.2.2. Transfer or Assignment

AT&T 800 Plan K, including any associated AT&T 800 Plan K number, may be transferred or assigned to a new Customer. See this AT&T Business Services Guide.

15.2.3. Retention of AT&T 800 Plan K Telephone Number

Customers may retain the same AT&T 800 Plan K telephone number when moving to another location or changing to AT&T 800 Service or AT&T MEGACOM 800 Service.

15. AT&T 800 PLAN K

15.3. RATES AND CHARGES

15.3.1. General

The rates for AT&T 800 Plan K consist of rate elements which are usage based.

15.3.2. Usage Charges

AT&T 800 Plan K has two optional rate schedules available: Option A, at a per minute rate and Option B, Block-of-Time rate schedule.

Usage charges for Option A are billed in arrears. Usage is billed per AT&T 800 Plan K telephone number and charges are calculated on a per call basis. Individual calls will be measured with a minimum initial period of 1 minute and additional 1 minute increments, rounded to the next highest minute or full increment. Total usage charges will be rounded to the nearest cent.

Usage charges for Option B, Block-of-Time, are determined based on a minimum average time requirement. Usage is billed per AT&T 800 Plan K telephone number. Charges for total chargeable hours of usage will be determined and rounded to the nearest cent.

15.3.3. Rate Determination

Rate determination of the AT&T 800 Plan K is as follows:

A. Minimum Average Time Requirement

The minimum average time requirement for AT&T 800 Plan K, Option B, Block-of-Time, is 30 seconds. This means that if the average duration per call is less than 30 seconds, billing will be based on the actual number of calls using an average duration of 30 seconds per call.

See Price List for Rates and Charges.

16. AT&T 800 PLAN P

16.1. DESCRIPTION

16.1.1. General

AT&T 800 Plan P is a custom switched telecommunications service which permits inward 800 number calling from stations located in the state of New Hampshire to a station associated with a Customer's local exchange telephone number. Intrastate AT&T 800 Plan P is an add-on to the interstate AT&T 800 Plan P service and is available only to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. AT&T 800 Plan P rates and charges apply to calls completed from calling stations to a telephone number associated with the Customer's local exchange service access line.

An AT&T 800 Plan P Customer shares access to an AT&T 800 number with other Customers and acquires service based on a two-digit Security Code assigned to the Customer by the Company. Thus, a Customer may not retain the AT&T 800 number or any right therein when service is disconnected.

AT&T 800 Plan P calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person calls
- Calling Card calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

AT&T 800 Plan P Service is available to Customers who enroll in this service by completing and returning an enrollment form provided by AT&T, by calling an 800 number designated by AT&T for this Service, or by enrolling during a marketing contact with AT&T. AT&T 800 Plan P Service is offered under Option 1 and Option 2 as specified below. The rates for AT&T 800 Plan P consist of a monthly recurring charge, usage charges and non-recurring charges that apply per AT&T 800 Plan P routing arrangement. AT&T 800 Plan P includes only one routing arrangement per AT&T 800 Plan P number. Each routing arrangement furnished to the Customer will be arranged for either Option 1 or Option 2 only. Option 1 and Option 2 will not be combined under the same routing arrangement.

16. AT&T 800 PLAN P

16.2. REGULATIONS

The usage rates specified for Option 1 and Option 2 apply for all times of day, seven days a week, for all distances. Calls are billed on a full minute basis. A minimum one-minute charge will be billed for each completed call. The duration of a call, which involves a fractional part of a minute, is rounded up to the next full minute. Charges for total chargeable minutes will be determined and rounded to the next highest cent.

Special holiday rates do not apply to AT&T 800 Plan P Service. The applicable usage rates specified for Option 1 or Option 2 apply 24 hours a day, seven days a week, including holidays.

19. AT&T GOVERNMENT INTERNATIONAL CALLING SERVICE

19.1. DESCRIPTION

19.1.1. General

AT&T Government International Calling Service (GICS) is designed to meet Customer needs for international and domestic voice communications. This service requires that the Customer's premises be connected to the AT&T Switched Network via standard local exchange company provided switched access.

This tariff is for Customers of interstate AT&T GICS who have a requirement for intrastate switched voice communications. Intrastate AT&T GICS is an add-on to Interstate AT&T GICS. All other terms and conditions, features and functions, discounts, installation charges, monthly charges, and any charges other than AT&T GICS intrastate Customer dialed switched voice charges, are specified in AT&T Business Services Guide.

AT&T GICS Calling does not include:

- Person to Person Calls,
- Collect Calls,
- Third Number Billed Calls,
- Operator Station Calls not billed to the GICS Calling Card,
- Conference Calls,
- Calls to 700, 800, 900 or Special Service Codes,
- Mobile Calls.

21. AT&T DIRECTory LINK<sup>sm</sup> SERVICE

21.1. DESCRIPTION

21.1.1. General

AT&T DIRECTory LINK Service permits a Customer to complete a call to the called station telephone number received from Intrastate Directory Assistance without hanging up and originating a separate call. AT&T DIRECTory LINK Service is offered when a Customer requests Intrastate Directory Assistance. When the Customer accepts the offer, after the requested number is received from Directory Assistance, the call is placed to the requested number. Customers obtaining two numbers from Directory Assistance are only able to use the AT&T DIRECTory LINK Service for the first number requested. AT&T DIRECTory LINK Service is not offered on the following types of calls:

- Certain Sent Paid calls from hotels, hospitals, dormitories, and coin telephones where billing capability is not available
- Direct-dialed SDN calls.

An AT&T DIRECTory LINK Service Charge applies to AT&T calls completed via AT&T DIRECTory LINK Service. The AT&T DIRECTory LINK Service Charge is not applied if the call cannot be completed. Usage charges and associated service charges (except Operator Station Service Charges) apply to the completed calls. The Operator Dialed Surcharge in P.U.C. No. 4, Section 2, Paragraph 2.4.4. does not apply on AT&T DIRECTory LINK Service calls. Discounts that apply to the usage and service charges also apply to the AT&T DIRECTory LINK Service Charge. In addition, all associated Directory Assistance charges, as specified in Section 1, Paragraph 1.6.6. of this tariff, apply for the provision of the requested listing information.

21.2. AVAILABILITY

AT&T DIRECTory LINK Service is offered to Customers served by AT&T Operator Service Position System (OSPS) and where AT&T network technical capability exists.

See Price List for Rates and Charges.

23. AT&T COMMERCIAL PREPAID CARD SERVICE

23.1. DESCRIPTION

23.1.1. General

AT&T Commercial Prepaid Card Service provides an outbound voice grade communications service for calls charged to an AT&T Commercial Prepaid Card. AT&T Commercial Prepaid Card Service may be purchased by Customers whose service is defined as business or commercial rated in the appropriate Local Exchange Company tariff for switched services. AT&T Commercial Prepaid Card Service is accessed using the AT&T 800 number printed on the card and all terms and conditions, as well as features and functions, are described in AT&T Business Services Guide.

All calls must be charged against an AT&T Commercial Prepaid Card that has a sufficient available balance. The following types of calls may not be completed with the AT&T Commercial Prepaid Card Service:

- Calls to 500 numbers
- Calls to 700 numbers
- Calls to 800 numbers
- Calls to 900 numbers
- Directory Assistance calls
- All Operator Service calls
- AT&T Conference calls
- AT&T Busy Line Verification and Interrupt Services
- Calls requiring the quotation of time and charges
- Air-to-Ground

Except as may be specifically referenced therein, calls made utilizing AT&T Commercial Prepaid Card Service are not included in any AT&T Custom Network Services, Optional Calling Plans, Virtual Telecommunications Network Services or any other AT&T services or promotions.

23. AT&T COMMERCIAL PREPAID CARD SERVICE

23.1. DESCRIPTION (Cont'd)

23.1.2. Availability

AT&T Commercial Prepaid Card Service is available twenty-four hours a day, seven days a week from dial tone multi frequency phones. The number of available AT&T Commercial Prepaid Cards is subject to technical limitations. Such cards will be offered to Customers on a first come, first served basis.

23.1.3. Regulations

- A. AT&T Commercial Prepaid Card Service is accessed using the AT&T 800 number printed on the card.
- B. All calls must be charged against an AT&T Commercial Prepaid Card that has a sufficient available balance.
- C. A Customer's call will be interrupted with an announcement when the balance is about to be depleted. Such announcement will occur one minute before the balance will be depleted, based on the terminating location of the call. The Customer will be requested to enter another valid AT&T Commercial Prepaid Card number in order to continue the call.
- D. Calls in progress will be terminated by the Company if the balance on the AT&T Commercial Prepaid Card is insufficient to continue the call and the Customer fails to enter the number of another valid AT&T Commercial Prepaid Card prior to termination.

P.U.C. NO. 1  
SECTION 23  
ORIGINAL PAGE 3

23. AT&T COMMERCIAL PREPAID CARD SERVICE

23.3. CREDIT ALLOWANCES FOR INTERRUPTIONS

A credit allowance for AT&T Commercial Prepaid Card Service is applicable to that portion of a call that is interrupted due to poor transmission, one-way transmission, or involuntary disconnection of the call. A Customer may also be granted credit for reaching a wrong number. To receive the proper credit, the Customer must notify the Company at the designated Customer Service Number printed on the AT&T Commercial Prepaid Card and furnish the called number, the trouble experienced (e.g., cut-off, noisy circuit, reached wrong number, etc.), and the approximate time the call was placed.

- A. Interruptions to Established Calls - When a call is charged to an AT&T Commercial Prepaid Card that is interrupted due to cut-off, one-way transmission, or poor transmission the Customer will receive credit equivalent to the number of calling units for one minute to the terminating location of the interrupted call.
- B. Wrong Numbers - When a wrong number is reached, the Customer will receive credit equivalent to the number of calling units for one minute to the terminating location of the call if the Customer reports the situation promptly to the Company at the designated Customer Service number.
- C. When Credit Allowances Do Not Apply - Credit allowances for calls pursuant to AT&T Commercial Prepaid Card Service do not apply for:
  - Interruptions not reported to the Company,
  - Interruptions that are due to the failure of power, equipment or systems not provided by the Company.
  - Interruptions caused by the failure of other services provided by this Company which are connected to AT&T Commercial Prepaid Card Service.

23. AT&T COMMERCIAL PREPAID CARD SERVICE

23.4. USE OF AT&T COMMERCIAL PREPAID CARD SERVICE

The AT&T Commercial Prepaid Card, as printed and distributed by AT&T, shall not be modified or altered in any manner. The Customer further agrees that the Customer shall not indicate or suggest to any other party, including the Customer's own subscribers if any, that any business relationship exists between the Customer, its agents, distributors, or subscribers and AT&T, except that the Customer may inform its subscribers that calls placed using the AT&T Commercial Prepaid Card account number will be carried over AT&T facilities. The Customer shall not use AT&T's name or logo, including but not limited to a picture or graphical representation of an AT&T Commercial Prepaid Card, without AT&T prior express written permission. The Customer is granted no rights whatsoever in the tradenames or insignia (Marks) of AT&T Commercial Prepaid Card Service, its corporate parent or corporate affiliates (Mark Holders). The Customer will not do business under any such Marks and acknowledges ownership and validity of the Marks by the Mark Holders and shall not assert any rights in the Marks and shall not bring or maintain any action or proceeding for invalidity of the Marks. The Customer will not offer to sell the AT&T Commercial Prepaid Card, or AT&T Commercial Prepaid Card account numbers, to persons residing outside the United States. The Customer acknowledges that any misuse of the Marks or any failure to abide by these terms shall cause AT&T irreparable harm which may not be fully remedied by a damage award and AT&T shall be entitled to seek, among other things, preliminary injunctive relief. Customers who desire to produce their own version of a card used to charge AT&T Commercial Prepaid Card Service shall be provided only with an AT&T Commercial Prepaid Card Service account number and shall be required to sign a Commercial Prepaid Card Bulk Issuance Agreement.

See Price List for Rates and Charges.

24. AT&T SOFTWARE DEFINED NETWORK SERVICE \*

(T)

24.1. AT&T SOFTWARE DEFINED NETWORK SERVICE

24.1.1. General

AT&T Software Defined Network service is a custom switched telecommunications service which permits a Customer to establish a communications path between two stations by using uniform dialing plans. Customer's stations are connected by access lines to designated AT&T central offices. AT&T central offices equipped to provide AT&T Software Defined Network Service are set forth in AT&T Business Services Guide. AT&T Software Defined Network Service will provide these customers with the capability and flexibility to tailor their networks to meet their unique and specialized communications requirements.

Intrastate Software Defined Network Service is an add-on to interstate Software Defined Network Service. All terms and conditions described in AT&T Business Services Guide, including service establishment charges, features and functions, monthly charges and any charges other than intrastate usage charges are incorporated here by reference and shall apply to intrastate Software Defined Network Service. AT&T Software Defined Network Service is also provided with Connected Pricing as described in AT&T Business Services Guide.

24.1.1.1. Regulations

See Section 1 of this tariff.

24.1.1.24. Definitions

See Section 2, of this tariff.

\* Basic SDN is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before September 8, 2003. Existing Customers with Basic SDN or Custom SDN in effect or on order prior to September 8, 2003 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on September 8, 2003 which include Basic SDN shall also continue under existing conditions. Availability of Basic SDN to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

24. AT&T SOFTWARE DEFINED NETWORK SERVICE\*

(T)

24.1. AT&T SOFTWARE DEFINED NETWORK SERVICE (Cont'd)

24.1.24. Mileage Measurements

A. General

The mileage for AT&T Software Defined Network calls is the distance in airline miles measured between (1) the V&H coordinates of the rate centers associated with the originating and terminating stations (Schedule A, B, C and M); (2) the V&H coordinates for the AT&T central office and the V&H coordinates for the rate center associated with a station (Schedule F); or (3) the V&H coordinates associated with originating and terminating AT&T central offices (Schedule E and G). Each rate center or AT&T central office has a unique set of assigned V&H coordinates used for calculating mileage.

For APN numbers, mileage will be calculated from the AT&T Central Office. Originating APN calls are measured from the V&H coordinates of the originating AT&T Central Office and terminating APN's are measured from the V&H coordinates of the terminating AT&T Central Office.

B. Calculation of Airline Mileage

Airline mileage is calculated as specified in AT&T Business Services Guide.

C. Allocation of Usage or Charges

The Company will not allocate the usage of CUSTOM NETWORK SERVICES or the charges for such usage and is not responsible for the way the Customer may allocate usage or charges among multiple Users.

D. SDN Billing Guarantee

Intrastate Software Defined Network Service calls are eligible for the Software Defined Network Billing Guarantee, subject to the terms and conditions as found in AT&T Business Services Guide.

\* Basic SDN is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customers who did not have it on order on or before September 8, 2003. Existing Customers with Basic SDN or Custom SDN in effect or on order prior to September 8, 2003 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on September 8, 2003 which include Basic SDN shall also continue under existing conditions. Availability of Basic SDN to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

26. AT&T MEGACOM® WATS SERVICE

26.1. DESCRIPTION

26.1.1. General

AT&T MEGACOM WATS Service is a custom switched telecommunications service which permits outward calling from designated AT&T MEGACOM WATS Service or central offices to stations throughout the state of New Hampshire. Intrastate service is an add on to the interstate AT&T MEGACOM WATS Service provided in AT&T Business Services Guide. AT&T MEGACOM WATS Service rates and charges apply to calls completed from AT&T MEGACOM WATS Service or central offices to called stations. AT&T MEGACOM WATS Service includes only direct dial calls completed without the assistance of a Company operator. AT&T MEGACOM WATS Service does not include Customer dialed calling card calls. AT&T MEGACOM WATS Service & do not include:

- Person calls,
- Collect calls,
- Third Number Billed calls,
- Conference calls, or
- Calls to 700, 800 or 900 Special Service Codes.

26.2. REGULATIONS

26.2.1. Provision of AT&T MEGACOM WATS Service

AT&T MEGACOM WATS Service is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

26. AT&T MEGACOM WATS SERVICE

26.4. RATES AND CHARGES

26.4.1. General

AT&T MEGACOM WATS Service rates are usage-based. Intrastate usage Charges are billed in arrears, and apply to all calls completed on AT&T MEGACOM WATS Service. Intrastate usage Charges on AT&T MEGACOM WATS Service are determined by the following rate schedules.

A. Rate Determination

Rate determination of the AT&T MEGACOM WATS Service is based upon the following:

1. Application Periods

| <u>Rate Period</u> | <u>From</u> | <u>Time Applicable To But Not Including</u> | <u>Days Applicable</u> |
|--------------------|-------------|---|------------------------|
| 1                  | 8:00 AM     | 5:00 PM                                     | Monday - Friday        |
| 2                  | 5:00 PM     | 11:00 PM                                    | Sunday - Friday        |
| 3                  | 11:00 PM    | 8:00 AM                                     | All days               |
|                    | 8:00 AM     | 11:00 PM                                    | Saturday               |
|                    | 8:00 AM     | 5:00 PM                                     | Sunday                 |

2. Initial Period

The initial period for all calls on AT&T MEGACOM WATS Service is 18 seconds.

3. Additional Period

The additional period for all calls on AT&T MEGACOM WATS is 6 seconds.

5. Discount Plans

Discounts are available for AT&T MEGACOM WATS as specified in Section 1, Paragraph 1.6.7. of this tariff.

See Price List for Rates and Charges.

27. AT&T DISTRIBUTED NETWORK SERVICE (DNS)

27.1. DESCRIPTION

27.1.1. General

AT&T Distributed Network Service is a telecommunications service which permits Customer direct dialed outward calling from multiple Customer locations to stations within New Hampshire. Intrastate service is an add-on to the interstate AT&T Distributed Network Service provided in AT&T Business Services Guide. The Customer will receive a single network bill for all locations in the DNS network. The Customer is responsible for payment of all calls associated with the DNS telephone number(s) at each location on the Customer's DNS network. Customer dialed DNS calls are dialed and completed without the assistance of a Company operator. DNS rates do not include:

- Person calls
- Collect calls
- Third number billed calls
- Conference calls
- Directory Assistance calls
- Calls to 700, 800 or 900 Special Service calls
- AT&T Calling Card calls

27. AT&T DISTRIBUTED NETWORK SERVICE (DNS)

27.2. REGULATIONS

27.2.1. Provision of AT&T Distributed Network Service

DNS is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

A. Engineering

DNS will be engineered to meet its transmission parameters.

B. Installation

Installation of DNS will usually be made during normal working hours.

C. Maintenance

The Company will maintain and repair the service which it provides.

27.2.2. Availability

DNS is available from Local Exchange carrier end offices equipped for equal access and where billing capability for DNS is available.

27.2.3. Access

Obtaining access to DNS is the responsibility of the Customer. Special Access is not available for DNS.

27. AT&T DISTRIBUTED NETWORK SERVICE (DNS)

27.3. RATES AND CHARGES

27.3.1. General

Rates for DNS consist of rate elements which are usage based. DNS usage charges are billed in arrears and apply to all completed calls on DNS.

A. Rate Determination

Rate determination of DNS is based upon the following:

1. Application Periods

Individual intrastate messages are rated using the following Rate Period schedules:

| Rate<br>Period | Times Applicable |                              | <u>Days Applicable</u> |
|----------------|------------------|------------------------------|------------------------|
|                | <u>From</u>      | <u>To, But Not Including</u> |                        |
| 1              | 8:00 AM          | 5:00 PM                      | Monday-Friday          |
| 2              | 5:00 PM          | 11:00 PM                     | Sunday-Friday          |
| 3              | 11:00 PM         | 8:00 AM                      | All Days               |
|                | 8:00 AM          | 11:00 PM                     | Saturday               |
|                | 8:00 AM          | 5:00 PM                      | Sunday                 |

2. Method of Computing Charges

Charges for each call are totaled by rate period. If the computed charges include a fraction of a mill, the fraction is rounded down to the next whole mill (e.g., \$1.4266 would be rounded down to \$1.426).

3. Initial Period

The initial period for all calls on DNS is 18 seconds or fraction thereof, regardless of the rate period.

4. Additional Period

The additional period for all calls on DNS is 6 seconds regardless of the rate period. If the additional period usage is less than 6 seconds, it will be billed at a full 6 second additional period rate.

See Price List for Rates and Charges.

28. AT&T ONE LINE WATS SERVICE

28.1. DESCRIPTION

28.1.1. General

AT&T One Line WATS Service is a custom switched telecommunications service which permits 1+ dialed, and/or 10+288 dialed calling from stations located within the state of New Hampshire to any station located in the state of New Hampshire. The AT&T One Line WATS Service is an add on to the interstate AT&T WATS Service. The AT&T One Line WATS Service rates and charges apply to calls originated from calling stations associated with the Customer's interstate access line, as provided under AT&T Business Services Guide. AT&T One Line WATS Service calls are dialed and completed without the assistance of a Company operator, and do not include:

- Person calls,
- Collect calls,
- Operator handled conference calls,
- Any other classification of operator handled calls.

28.2. REGULATIONS

28.2.1. Provision of AT&T One Line WATS Service

AT&T One Line WATS Service is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from the Local Exchange Carriers.

A. Engineering

AT&T One Line WATS Service will be engineered to meet its transmission parameters.

B. Installation

Installation of AT&T One Line WATS Service will usually be made during normal working hours. See AT&T Business Services Guide for applicable charges.

C. Maintenance

The Company will maintain and repair the service which it provides.

28.2.2. Availability

AT&T One Line WATS Service is available statewide. Handicapped customers receive no special rate under this plan.

28.2.3. Transfer or Assignment

AT&T One Line WATS Service, including any associated telephone number(s), may be transferred or assigned to a new Customer. See AT&T Business Services Guide.

28. AT&T ONE LINE WATS SERVICE

28.3. ACCESS

28.3.1. General

The AT&T One Line WATS Service utilizes a dedicated access line. This line is an interstate access line available in AT&T Business Services Guide.

28.4. RATES AND CHARGES

28.4.1. General

Rates for the AT&T One Line WATS Service consist of rate elements which are usage based. The AT&T One Line WATS Service usage charges are billed in arrears and apply to all calls rated under the AT&T One Line WATS Service offering which are placed over an interstate access line subsequent to service establishment.

A. Rate Determination

Rate determination of AT&T One Line WATS Service is based upon the following:

1. Application Periods

Individual intrastate messages are rated using the following Rate Period schedules:

| <u>Rate<br/>Period</u> | <u>Times Applicable</u> |                                  | <u>Days Applicable</u> |
|------------------------|-------------------------|----------------------------------|------------------------|
|                        | <u>From</u>             | <u>To, But Not<br/>Including</u> |                        |
| 1                      | 8:00 AM                 | 5:00 PM                          | Monday - Friday        |
| 2                      | 5:00 PM                 | 11:00 PM                         | Sunday - Friday        |
| 3                      | 11:00 PM                | 8:00 AM                          | All Days               |
|                        | 8:00 AM                 | 11:00 PM                         | Saturday               |
|                        | 8:00 AM                 | 5:00 PM                          | Sunday                 |

29. AT&T SMALL BUSINESS<sup>sm</sup> OPTION

29.1. DESCRIPTION

29.1.1. General

The AT&T SMALL BUSINESS Option permits customer dialed outward calling from a station in the State of New Hampshire. Customers who are subscribing to AT&T SMALL BUSINESS Option as described in AT&T Business Services Guide, are eligible for the intrastate AT&T SMALL BUSINESS Option which offers Customers a separate per minute rate schedule for intrastate calls (See Section 29.3.3. following). AT&T SMALL BUSINESS Option is an add-on to the interstate SMALL BUSINESS Option as specified in AT&T Business Services Guide. Customers who subscribe to the AT&T SMALL BUSINESS Option may not subscribe to any other outward service calling plan under the Same Main Billed Account.

The intrastate rates offered under this plan apply to direct dial intrastate station calls billable to the Customer's AT&T SMALL BUSINESS Option Billed Telephone Number (BTN) account.

AT&T SMALL BUSINESS Option rates do not apply to:

- Conference Service calls
- Directory Assistance calls
- Person and Other Operator Handled calls
- 700, 800 or 900 Special Service Codes
- Calling Card calls
- Mobile calls
- Calls to 976 Numbers.

29. AT&T SMALL BUSINESS OPTION

29.4. RATES AND CHARGES

29.4.1. Minimum Payment Period

The minimum payment period for AT&T SMALL BUSINESS Option is one month.

Usage rates are quoted in terms of cents per minute regardless of distance, day of week, or time of day.

All AT&T SMALL BUSINESS Option calls are rounded to the next higher full minute.

29.4.2. Rate Determination

A. Application Periods

Usage rates for AT&T SMALL BUSINESS Option are applicable regardless of distance, day of week, or time of day.

B. Timing of Messages

1. On AT&T SMALL BUSINESS Option calls, connection time begins when the connection is established between the calling station and the called station.
2. Connection time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, connection time ends when the network connection is released either by automatic timing equipment in the telecommunications network or by the Company operator.
3. Chargeable time does not include time lost because of faults or defects in the service.

31. AT&T CLEAR ADVANTAGE<sup>sm</sup> SERVICE\*

31.1. DESCRIPTION

31.1.1. General

The AT&T Clear Advantage is a switched Custom Network Service that permits 1) Customer dialed outward and calling card calling from stations to stations in the State of New Hampshire and/or inward 800 calling from stations within the State of New Hampshire. Intrastate AT&T Clear Advantage service is an add-on to the interstate AT&T Clear Advantage and is available to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. All terms and conditions, features, discounts and monthly charges, except intrastate usage rates will apply as specified in AT&T Business Services Guide.

AT&T Clear Advantage Service calls are direct dial station calls completed without the assistance of a Company Operator, Customer dialed AT&T CIID/891 Card calls and inward calling 800 calls.

AT&T Clear Advantage Service rates do not apply to:

- Directory Assistance Calls
- Conference Calls
- AT&T Maritime Mobile Service Calls
- Operator Handled Calls
- Cellular Calls or 900 Special Service Codes

\* Beginning March 14, 1998, AT&T Clear Advantage Service is not available to newly subscribed customers. Existing customers may continue their current Clear Advantage Service under existing conditions.

32. AT&T OPTIMUM SERVICE

32.2. REGULATIONS (Cont'd)

32.2.5. Maintenance Guarantee (Cont'd)

A. Calculation of Credit

When service is interrupted on switched or special access line(s) for a continuous period of six hours or more a credit will apply. If more than one interruption occurs during a given month, each interruption is considered independently for the application of credit. The total credit for a given month cannot exceed 100% of the total usage charges incurred on such line(s) for the previous billing month. This credit is described in 1. and 2. below. If there are no usage charges for the previous month, the credit will be calculated based on the current month's usage charges.

1. Interruption of 24 Hours or Less

- (a) When service is interrupted for a continuous period of less than six hours, no credit will apply.
- (b) When service is interrupted for a continuous period of six hours to 24 hours, the Customer will receive a credit equal to 10% of the previous month's usage charges incurred on such line(s).

2. Interruptions Over 24 Hours

When service is interrupted for a continuous period of 24 hours or greater the Customer will receive the greater of: 1) a credit of 1/30th of the previous month's total usage charges incurred on such line(s) for each 24-hour period, or fraction thereof, or 2) a single credit equal to 10% of the previous month's total usage charges.

Credit allowance does not apply under conditions specified in AT&T Business Services Guide.

32. AT&T OPTIMUM SERVICE

32.3. ACCESS

32.3.1. General

An AT&T OPTIMUM Service access line connects a Customer premises or a Customer's private network to an AT&T OPTIMUM Service. There are two types of access lines: Special Access and Local Exchange Service Switched Access. Special Access and Local Exchange Service Switched Access furnished at the same location or different locations may be associated with the same main billed account of the customer.

A. Special Access

AT&T OPTIMUM Service using Special Access is available at designated AT&T OPTIMUM Service Central Offices. The Customer's premises may be connected to an AT&T Central Office using special access and an Office Connection. Access may be furnished by this Company as specified in AT&T Business Services Guide. The Customer also has the option of providing his or her own access facilities.

B. Local Exchange Service Switched Access

When local exchange service switched access is required to access an AT&T OPTIMUM Service, the Customer is responsible for obtaining the local exchange service switched access from the local exchange company. The Local Exchange Service Switched Access line must be pre-subscribed to AT&T as the primary interexchange carrier. In the event that the Customer should change its Dial 1 Service to a primary interexchange carrier other than AT&T, the Customer must notify AT&T of the change. AT&T will terminate the Customer's AT&T OPTIMUM Service at a switched access location when AT&T is notified by the Customer or by any other means that the Customer has changed its Dial 1 Service for that location to a primary interexchange carrier other than AT&T. Local Exchange Service Switched Access for AT&T OPTIMUM Service is available in local exchanges served by the Local Exchange Companies as specified in AT&T Business Services Guide.

32. AT&T OPTIMUM SERVICE

32.4. RATES AND CHARGES

32.4.1. General

AT&T OPTIMUM Service rates are usage-based. Intrastate usage charges are billed in arrears, and apply to all calls completed on AT&T OPTIMUM Service. Intrastate usage charges on AT&T OPTIMUM Service are determined by the following rate schedules.

32.4.2. Rate Determination

A. Application Periods

AT&T OPTIMUM Service is offered at Peak and Off-Peak rates. The Peak rate period is 8:00 AM to, but not including 5:00 PM Monday through Friday. The Off-Peak period is 5:00 PM to, but not including 8:00 AM Monday through Friday, all day Saturday, and all day Sunday to, but not including 8:00 AM Monday.

B. Initial Period

The initial period for all calls on AT&T OPTIMUM Service is 30 seconds or fraction thereof, regardless of the rate period.

C. Additional Period

The additional period for all calls on AT&T OPTIMUM Service is 6 seconds or fraction thereof, regardless of the rate period.

32. AT&T OPTIMUM SERVICE

32.6. VOLUME DISCOUNTS

Volume discounts are available for AT&T OPTIMUM Service. The volume discounts use a percentage reduction which applies to usage charges, as specified below, during a billing month.

| <u>Total Usage</u>       | <u>Percent Discounts</u> |
|--------------------------|--------------------------|
| \$0 to \$ 7,500          | 0%                       |
| Over \$ 7,500 - \$10,000 | 7%                       |
| Over \$10,000 - \$15,000 | 10%                      |
| Over \$15,000 - \$30,000 | 12%                      |
| Over \$30,000            | 15%                      |

32.7. IntraLATA Dialing Plan Promotion:

Beginning on the effective date of this tariff and ending June 30, 1994, the intraLATA Dialing Plan Promotion will be available to new and existing AT&T OPTIMUM<sup>sm</sup> Customers. To qualify, Customers must commit to a monthly incremental increase in outbound intrastate intraLATA usage for one of the above mentioned AT&T services.

Customers accessing any of the above mentioned services via Private Branch Exchange (PBX) or other systems with Automatic Route Selection (ARS) capability, who meet or exceed \$150.00 in incremental outbound intraLATA monthly usage by their second full monthly bill after enrollment and who incur reprogramming expenses to reroute outbound intraLATA usage to AT&T, will be given a credit of \$250.00 to be applied to AT&T outbound intraLATA usage.

All PBX locations within the state are eligible for the promotion provided each location satisfies the outbound intraLATA usage requirements. Customers must also change the ARS software and route all outbound intraLATA traffic over the AT&T network. Customers must arrange to reroute all outbound intraLATA traffic to AT&T by August 30, 1994.

32. AT&T SOFTWARE DEFINED NETWORK SERVICE

32.7. IntraLATA Dialing Plan Promotion (Cont'd)

Customers not using an ARS capable system who meet or exceed the monthly incremental increase in AT&T outbound intraLATA usage by their second full monthly bill after enrollment will be given a credit to be applied to AT&T outbound intraLATA usage. The amount of the credit is dependent on the monthly incremental AT&T outbound intraLATA usage generated by the Customer and the number of automatic dialers used to route the traffic. Credit applicable to AT&T outbound intraLATA usage will be available as follows:

| <u>INCREMENTAL USAGE<br/>(PER MONTH)</u> | <u>AUTOMATIC DIALERS</u> | <u>CREDIT PER<br/>AUTOMATIC DIALER</u> | <u>MAXIMUM CREDIT</u> |
|--|--------------------------|--|-----------------------|
| \$150.00 or more                         | Maximum 3                | \$355.00                               | \$1065.00             |
| \$355.00 or more                         | Maximum 4                | \$355.00                               | \$1420.00             |
| \$875.00 or more                         | Maximum 5                | \$355.00                               | \$1775.00             |

Credit will appear on the third bill following the Customers providing documentation to AT&T that the PBX, ARS and/or Automatic Dialers have been reprogrammed in accordance with the guidelines established for this promotion.

Customers must maintain or exceed the monthly incremental increase in outbound intraLATA usage as noted above for a twelve (12) month period. If a Customer fails to generate the required incremental usage, all credits associated with this promotion will be rebilled and future credits will be denied. If the Customer migrates to another service other than MEGACOM PLUS with the UniPlan Discount option during the first twelve (12) months, all credits associated with this promotion will be rebilled and future credits will be denied.

See Price List for Rates and Charges.

35. AT&T COLLEGE CONNECT CALLING SERVICE - CUSTOM\*

(T)

35.1. DESCRIPTION

35.1.1. General

AT&T College Connect Calling Service - Custom is a switched telecommunications service furnished only to private Colleges and Universities. AT&T College Connect Calling Service - Custom provides calling from on-network stations, or from off-network stations with the use of the Network Remote Access optional features, to other locations in the State of New Hampshire. Customer stations are connected by access lines to designated AT&T Central Offices. Intrastate AT&T College Connect Calling Service - Custom is an add-on to the interstate College Connect Calling Service and is available only to Customers who subscribe to the interstate service provided in AT&T Business Services Guide. All terms and conditions of AT&T's interstate College Connect Calling Service, including rules and regulations, features, functions, discounts, installation and monthly charges, except intrastate usage, will apply as specified in AT&T Business Services Guide. AT&T College Connect Calling Service - Custom intrastate usage rates are listed in the Price List Section of this tariff.

\* CCCS Custom is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customer who did not have it on order on or before September 8, 2003. Existing Customer with CCCS Custom in effect or on order prior to September 8, 2003 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on September 8, 2003, which include CCCS Custom shall also continue under existing conditions. Availability of CCCS Custom to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

35. AT&T COLLEGE CONNECT CALLING SERVICE - CUSTOM\*

35.2. REGULATIONS

35.2.1. Provision of AT&T College Connect Calling Service - Custom

AT&T College Connect Calling Service - Custom is offered under this tariff subject to the availability of suitable service components furnished by this Company or obtained from others.

A. Engineering

AT&T College Connect Calling Service - Custom will be engineered to meet its transmission parameters.

B. Mileage Measurements

The mileage for AT&T College Connect Calling Service calls is the distance in airline miles measured between: the V&H coordinates for the rate centers associated with the originating and terminating stations (Schedule A, B and C).

For APN numbers, mileage will be calculated from the AT&T Central Office. Originating APN calls are measured from the V&H coordinates of the originating AT&T Central Office and terminating APN's are measured from the V&H coordinates of the terminating AT&T Central Office.

C. Installation

Installation of AT&T College Connect Calling Service - Custom will usually be made during normal working hours.

D. Maintenance

The Company will maintain and repair the service which it provides.

\* CCCS Custom is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customer who did not have it on order on or before September 8, 2003. Existing Customer with CCCS Custom in effect or on order prior to September 8, 2003 may continue under existing conditions. AT&T Contract Tariffs or contracts in effect or on order on September 8, 2003, which include CCCS Custom shall also continue under existing conditions. Availability of CCCS Custom to customers taking the Service pursuant to an AT&T Contract Tariff or contract will not extend beyond the current term of the applicable Contract Tariff or contract.

35.2. REGULATIONS (Cont'd)

35.2.2. Availability

AT&T College Connect Calling Service - Custom is available from the same AT&T Central Offices as those where Software Defined Network Service is available, and are specified in AT&T Business Services Guide.

35.3. ACCESS

35.3.1. General

Obtaining access to AT&T College Connect Calling Service - Custom is the responsibility of the Customer. There are two types of access lines: Special Access and Local Exchange Service Access.

A. Special Access

Special (dedicated) access to AT&T College Connect Calling Service Custom may be furnished by this Company as specified in AT&T Business Services Guide, or may be provided by others.

B. Local Exchange Service Access

When Local Exchange Service Access (switched) is required to access AT&T College Connect Calling Service - Custom, the Customer is responsible for obtaining switched access from the Local Exchange Company.

\* CCCS Custom is not available, either under this tariff section or through any AT&T Contract Tariff or contract referencing this tariff section, to new or existing Customer who did not have it on order on or before September 8, 2003.
